

Rosso Malpelo Giovanni Verga

Theodor Fontane and the European Context

2021-12-28 On the centenary of Fontane's death and at the turn of the century these essays take a new look at this supreme chronicler of Prussia and of the Germany that emerges after 1871.

Written by scholars from different countries and disciplines, they focus on novels and theatre reviews from the perspectives of philosophy, sociology, comparative literature and translation theory, and in the contexts of topography and painting. Connections and crosscurrents emerge to reveal new aspects of Fontane's poetics and to produce contrasting but complementary readings of his novels. He appears in the company of predecessors and contemporaries, such as Scott, Thackeray, Saar, Ibsen, Turgenev, but also in that of writers he has rarely, if ever,

been seen beside, such as E.T.A. Hoffmann, Stendhal, Trollope, Henry James and Edith Wharton, Beckett and Faulkner. The historical novel and the social position of women are each a recurring focus of interest. Fontane emerges as receptive to other voices, as a precursor of developments in modern narrative, and confirmed as the novelist who brings the nineteenth-century German novel closest to the broad traditions of European realism.

Language in Giovanni Verga's Early Novels

Nicholas Patruno 1977 Nicholas Patruno provides an analysis into the language used by Giovanni Verga with ample documentation that sets the ground for future work on the author. This volume is unique in that it focuses on Verga's early works. The study considers three aspects of language that structure the volume:

phonology, morphosyntax, and lexicon.

Cavalleria Rusticana and Other Stories Giovanni Verga 2006-03-30 The stories of Giovanni Verga (1840-1922) are wonderful evocations of ordinary Italian life, focusing in particular on his native Sicily. In an original and dynamic prose style, he portrays such eternal human themes as love, honour and adultery with rich and colourful language. The inspiration for Mascagni's opera, 'Cavalleria Rusticana' depicts a young man's triumphal return home from the

army, spoilt when he learns that his beloved is engaged to another man. Verga's acute awareness of the hardships and aspirations of peasant life can be seen in stories such as 'Nedda', 'Picturesque Lives' and 'Black Bread', while others such as 'The Reverend' and 'Don Licciu Papa' show the dominance of the church and the law in the Sicilian communities he portrays so vividly.

D. H. Lawrence Simonetta de Filippis
2016-08-17 In recent decades, critical and theoretical debate in the field of culture and

literature has called into question many literary categories, has re-discussed the literary canon, and has totally renovated critical approaches in the wake of major changes in western society such as the irruption of new cultural identities, the disruption of the well-established Euro-centric conception, and the need to establish new world visions. D. H. Lawrence has been a focus for critical debate since his early publications in the first decades of the 20th century. The force of his thought, his courageous challenge against the most important values of western industrial society, his rejection of England and its bourgeois values, his choice to live in exile, his never-ending quest for lost vital meanings, his open-mindedness in coming into contact with different worlds and cultures, and the revolutionary impact of his writing have all provided critics with important issues for discussion. Most of Lawrence's works are still being read and analysed through ever-new critical lenses and approaches. This volume

brings together a selection of papers delivered at the 13th International D. H. Lawrence Conference, D. H. Lawrence: New Life, New Utterance, New Perspectives held in Gargnano in 2014, on Lake Garda: the place of Lawrence's first Italian sojourn, where he started a "new life" with Frieda and a new phase as a writer. The essays selected for Part I of this volume offer new readings of Lawrence's work and ideology through various theoretical and philosophical approaches, drawing comparisons with philosophers and thinkers such as Bataille, Darwin, Derrida, Heidegger, and Benjamin, among others. Part II focuses on translation, a concept which can be extended to cultural mediation, as it can be applied not only to the proper translation of texts from one language into another, but also to travel writing and to transcoding, as is the case of film versions of Lawrence's novels.
