How can I display JSON in an easy-to-read (for human readers) format? I'm looking primarily for indentation and whitespace, with perhaps even colors / font-styles / etc. I've opened VS Code's settings.json file many times, and each time I forgot where it was. If I go to File → Preferences → Settings, I get the graphical settings interface (screenshot). I want to open Do standards or best practices exist for structuring JSON responses from an API? Obviously, every application's data is different, so that much I'm not concerned with, but rather the "response Of course, the correct MIME media type for JSON is application/json, but it's necessary to realize what type of data is expected in your application. For example, I use Java Ext GWT and the server ... May 11, 2013 · Here I'm creating a JavaScript object and converting it to a JSON string,

but JSON.stringify returns "[object Object]" in this case, instead of displaying the contents of the object. Sep 4, 2020 · Note: This won't prettify the json representation. To do so, one can previously rely on an external service such as jsbeautifier.org and paste the prettified result in the wiki. JSON is used a lot for application data and configuration settings, so comments are necessary now. The "official spec" is a nice idea, but it's insufficient and obsolete, so too bad. Minify your JSON if you're ... 963 The org.json library is easy to use.
