Green Technologies and the Mobility Industry Andrew Brown 2010-11-16 This book features 20 SAE technical papers, originally published in 2009 and 2010, which showcase how the mobility industry is developing greener products and staying responsive - if not ahead of - new standards and legal requirements. These papers were selected by SAE International's 2010 President Dr. Andrew Brown Jr., Executive Director and Chief Technologist for Delphi Corporation. Authored by international experts from both industry and academia, they cover a wide range of cutting-edge subjects including powertrain electrification, alternative fuels, new emissions standards and remediation strategies, nanotechnology, sustainability, in-vehicle networking, and how various countries are also stepping up to the "green challenge". Green Technologies and the Mobility Industry also offers additional useful information: the most recent Delphi Worldwide Emissions Standards booklets, which will be shipped with the print version of this title, or as part of the PDF download, if you purchase the ebook version. Implications of Alternative Fuel Use and Regulations in the Mountain Plains Region Mark Lofgren 2008 The objective of this study is to provide an overview of alternative fuel use and potential in the Mountain Plains Region (MPR) as well as benefit/cost analysis of switching from traditional to alternative fuels (such as ethanol and biodiesel) for a specific university in the region. The study will analyze users that would be affected by alternative fuel policy mandates and also examine potential demand for such products. Included will be a comparison of existing alternative fuels and related effects on the transportation sectors, as well as an overview of associated mandates/incentives that have been implemented in other states.
