Pitman's Journal of Commercial Education 1913

Mastering Financial Calculations Bob Steiner 2012-05-14 Success in today's sophisticated financial markets depends on a firm understanding of key financial concepts and mathematical techniques. *Mastering Financial Calculations* explains them in a clear, comprehensive way -- so even if your mathematical background is limited, you'll thoroughly grasp what you need to know. *Mastering Financial Calculations* starts by introducing the fundamentals of financial market arithmetic, including the core concepts of discounting, net present value, effective yields, and cash flow analysis. Next, walk step-by-step through the essential calculations and financial techniques behind money markets and futures, zero-coupon analysis, interest rate and currency swaps, bonds, foreign exchange, options, and more. Making use of many worked examples and practical exercises, the book explains challenging concepts such as forward pricing, duration analysis, swap valuation, and option pricing - all with exceptional clarity. Whether you are a trader, fund manager, corporate treasurer, programmer, accountant, risk manager, or market student, you'll gain the ability to manipulate and apply these techniques with speed and confidence.

Advances in Spatio-Temporal Analysis Xinming Tang 2007-08-23

Developments in Geographic Information Technology have raised the expectations of users. A static map is no longer enough; there is now demand for a dynamic representation. Time is of great importance when operating on real world geographical phenomena, especially when these are dynamic. Researchers in the field of Temporal Geographical Information Systems (TGIS) have been developing methods of incorporating time into geographical information systems. Spatio-temporal analysis embodies spatial modelling, spatio-temporal modelling and spatial reasoning and data mining. *Advances in Spatio-Temporal Analysis* contributes to the field of spatio-temporal analysis, presenting innovative ideas and examples that reflect current progress and achievements.

Financial Services and Wealth Management in Singapore Tan Chwee Huat 2011-08-01 During the last decade, many changes have taken place in the Singapore financial marketplace. The Monetary Authority of Singapore has implemented numerous reforms to liberalize financial services sector. Since 2002, two new laws have come into effect. The Securities and Futures Act and the Financial Advisors Act have important impact on the financial community. Institutions must hold the Capital Market Services (CMS) licence and the Financial Advisors licence and their representatives must pass the CMFAS examinations. This book discusses the changes in detail. Part A provides details of the reforms and discusses the impact of the new laws and regulations. Part B highlights the wide range of financial services and products provided by the institutions. In this edition, two new chapters have been added. They focus on issues related to wealth management which has become the recent focus of many banks that provide services to high net worth individuals or HNWIs. This book should be of interest to all financial institutions and professionals. It is also a must-read for investors who have to choose from a wide range of financial products. It will be especially useful to students and professionals in banking and finance.
