Nature Sir Norman Lockyer 1910

I Saw Three Ships and Other Winter's Tales Arthur Quiller-Couch 1892 This is a pre-1923 historical reproduction that was curated for quality. Quality assurance was conducted on each of these books in an attempt to remove books with imperfections introduced by the digitization process. Though we have made best efforts - the books may have occasional errors that do not impede the reading experience. We believe this work is culturally important and have elected to bring the book back into print as part of our continuing commitment to the preservation of printed works worldwide.

Tactile and Personal Norman Burslem 2023-02-15 A newborn child; a dying mother; the fragile balance of nature; a family struggling with marital discord; an elderly man struggling with social isolation. This new collection of poems and short stories ponders the human condition and that of the natural world. This touching and thoughtful work considers themes as varied as familial relationships and climate change, striking a chord with many readers in such uncertain times.

Patched Collective: Poems

Common Core CPR ReLeah Cossett Lent 2013-09-27 The ideal? Newly minted high school graduates all across the nation, each one a complex text genius, a writer and analytic thinker beyond compare. All on to glorious colleges and careers, thanks to the Common Core. The reality? The 1.3 million students who fail to graduate from high school each year and the hundreds of thousands more who either gave up or lost interest long ago . . . The reality is why Common Core CPR is needed. Urgently. Because if we continue to insist that all students meet expectations that are well beyond their abilities and mindsets, these kids will only decline faster. We must be brave enough--and trained enough--to cast aside what we know harms students and apply with renewed vigor the teaching methods we know work. Releah Lent and Barry Gilmore rise to the challenge, and there are no two authors better equipped to do so. They embrace what is best about the standards--their emphasis on active, authentic learning--and then explicitly show teachers how to connect these ideal outcomes to practical classroom strategies, detailing the day-to-day teaching that can coax reluctant learners into engagement and achievement. You'll learn how to: Consider choice and relevance in every assignment Plan and spot opportunities for success Scaffold students' comprehension of complex fiction and nonfiction texts Model close reading through thoughtful questioning Teach students to use evidence in reading, writing, speaking, and reflection . . . And so much more It's not the big sweeping formulas for achievement that will win the day; it's the incremental growth that teachers need to make happen: that one book, that one writing assignment, to help a student turn a corner. "If we can get that one transformational moment to occur, and follow it up by designing more opportunities for success, that's the ideal," say Lent and Gilmore.

Autism in Young Adult Novels Marilyn Irwin 2015-06-17 An estimated 1 in 110 children in the United

States has autism spectrum disorder (ASD). Although the public awareness of autism has grown significantly, teens are not as educated about this subject as they should be. When accurately and positively presented, literature has been shown to help the classmates of those with ASD better understand the disorder. Increased familiarity with the subject will, in turn, help foster acceptance. In *Autism in Young Adult Novels: An Annotated Bibliography*, Marilyn Irwin, Annette Y. Goldsmith, and Rachel Applegate identify and assess teen fiction with autism content. In the first section, the authors analyze how characters with ASD are presented. Where do they live and go to school? Do they have friends? Do they have good relationships with their family? How are they treated by others? The authors also consider whether autism is accurately presented. This discussion is followed by a comprehensive bibliography of books that feature a character identified as being on the autism spectrum. The novels reviewed in this volume date as far back as the late 1960s and include works published in the last few years. As more and more authors of young adult fiction become sensitive to ASD, they are featuring such characters in their novels, creating more realistic works for their readers. This study will help librarians and others collect, choose, evaluate, and use these works to educate young adults.

Cacophony of Bone Kerri ní Dochartaigh 2023-11-14 The author of *Thin Places* reflects on the isolation she experienced after moving into a secluded Irish cottage just before the 2020 global pandemic. "Ní Dochartaigh's reflections during this time are powerful and poignant, examining themes of motherhood, death, and time. As she grapples with depression, sobriety, and fertility, ní Dochartaigh parallels the social turbulence and pandemic chaos with the majesty of nature . . . Personal, relatable, and restorative, *Cacophony of Bone* voices a crucial plea to have faith in humanity." — Booklist Two days after the winter solstice, Kerri ní Dochartaigh and her partner moved to a remote cottage in the heart of Ireland. They were looking for a home, somewhere to settle into a stable life. Then the pandemic arrived, and their secluded abode became a place of enforced isolation. What was meant to be the beginning of an enriching new chapter was instead marked by uncertainty and fear. The seasons still passed, the swallows returned, the rhythms of the natural world went on, but in many ways, everything was forever changed. Mapping the circle of a year—a journey from one place to another, field notes of a life—Kerri tells the story of a changed life in a changed world. And for Kerri there would be one more change: a baby, longed for but utterly, beautifully unexpected. Intensely lyrical and deeply moving, *Cacophony of Bone* is an ode to a year, a place, the natural world, and most of all to a love that transformed a life. Guided by a voice that is utterly singular, this book is "raw, visionary, lucid, and mystical" (Katherine May), a meditation on home, the deepening of

family, and the connections that sustain us. "Kerri ní Dochartaigh is nothing less than an alchemist, and *Cacophony of Bone* is a wondrous book." —Margaret Renkl, author of *Graceland*, *At Last* "An arrestingly poetic, genre-bending meditation on time and place. If the pandemic made one thing clear, it's that time is shimmering and slippery, a shapeshifter. It moves the way Kerri ní Dochartaigh's brilliant mind moves, like a fast, deep river. I am as thrilled by the artistry of her sentences as I am by the wisdom they carry in their current. *Cacophony of Bone* will live on my bookshelf beside *Thin Places*, one of my favorite books of the past several years. I know I'll reach for them both again and again." —Maggie Smith, New York Times-bestselling author of *You Could Make This Place Beautiful*
