A Descriptive Study of Teachers' Conceptions of Language as Affecting the Decision-making in Planning and Evaluating Students' Writing in Grades Four, Five and Six Joseph Bernard Rubin 1978

International Handbook of Research on Teachers and Teaching Lawrence J. Saha 2009-04-17 The International Handbook of Research on Teachers and Teaching provides a fresh look at the ever changing nature of the teaching profession throughout the world. This collection of over 70 articles addresses a wide range of issues relevant for understanding the present educational climate in which the accountability of teachers and the standardized testing of students have become dominant.

Reading Horizons 1982 Reading Horizons began in 1960 by Dorothy J. McGinnis as a local reading education newsletter and developed into an international journal serving reading educators and researchers. Major colleges, universities, and individuals subscribe to Reading Horizons across the United States, Canada and a host of other countries. Dedicated to adding to the growing body of knowledge in literacy, the quarterly journal welcomes new and current research, theoretical essays, opinion pieces, policy studies, and best literacy practices. As a peer-reviewed publication, Reading Horizons endeavors to bring school professionals, literacy researchers, teacher educators, parents, and community leaders together in a collaborative community to widen literacy and language arts horizons.

An Integrated Approach to Early Literacy Susan Mandel Glazer 1994 A holistic approach to language learning from a developmental point of view. Text covers three main areas: the characteristics of human development, theories that guide the caregiver to create the appropriate environments for learning, and practical strategies that encourage growth in reading, speaking, listening and writing. courses in emergent literacy, reading in early childhood education, early childhood language arts.

The Effective Teaching of Language Arts Donna E. Norton 1993 Field-tested and backed by sound research, this popular methods book provides readers with a broad background in language arts, including assessment and instruction in the major areas of speaking, listening, writing, and reading. Thoroughly encompassing the 'back-to-basics' movement and the trend toward literature-based instruction, it offers clearly developed methodologies and lessons, and makes extensive use of children's actual language samples to illustrate ways literature can enhance the development of language arts skills. Written by an award-winning author, the book focuses on material that embraces the needs of all learners: linguistically-different children, multicultural children, and children with learning disabilities and handicaps.

Emphasizing the importance of literature-based strategies and the identification of literature that can be

applied to each of the language arts, it offers 'For Your Plan Book', a special section at the end of most chapters which provides concrete ideas, field-tested lessons and unit plans teachers can take right into their classroom. Literature chapters are now moved to the forefront of the book, enabling instructors to place a greater emphasis on literature-related language arts. Strong methodologies in the composition chapters now encompass the writing process, plus results of a five-year composition study of the relationships between writing and literature. Public school educators, parents in home schooling, and library personnel.

Research Anthology on Bilingual and Multilingual Education Management Association, Information Resources 2021-10-29 Given the boost in global immigration and migration, as well as the emphasis on creating inclusive classrooms, research is turning to the challenges that teachers face with the increasing need for bilingual and multilingual education. The benefits of bilingual education are widespread, allowing students to develop important cognitive skills such as critical thinking and problem solving as well as opening further career opportunities later in life. However, very few resources are available for the successful practice and implementation of this education into the curriculum, with an even greater lack of appropriate cultural representation in the classroom. Thus, it is essential for educators to remain knowledgeable on the emerging strategies and procedures available for making bilingual and multilingual education successful. The Research Anthology on Bilingual and Multilingual Education is a comprehensive reference source on bilingual and multilingual education that offers the latest insights on education strategy and considerations on the language learners themselves. This research anthology features a diverse collection of authors, offering valuable global perspectives on multilingual education. Covering topics such as gamification, learning processes, and teaching models, this anthology serves as an essential resource for professors, teachers, pre-service teachers, faculty of K-12 and higher education, government officials, policymakers, researchers, and academicians with an interest in key strategy and understanding of bilingual and multilingual education.

Potentials of Childhood: Studies in early developmental learning William Fowler 1983

Principles and Practice in Second Language Acquisition Stephen D. Krashen 1982 The present volume examines the relationship between second language practice and what is known about the process of second language acquisition, summarising the current state of second language acquisition theory, drawing general conclusions about its application to methods and materials and describing what characteristics effective materials should have. The author concludes that a solution to language teaching lies not so much in expensive equipment, exotic new methods, or sophisticated language analysis, but rather in the full utilisation of the most important resources - native speakers of the language - in real communication.
