Nov 5, 2025 · Bruner views symbolic representation as crucial for cognitive development, and since language is our primary means of symbolizing the world, he attaches

great importance to language ... In this post, we explore the work of Jerome Bruner on scaffolding of learning. This is a simplified interpretation of the theory, so if you wish to learn more, please read the original works. Jerome Bruner was a leader of the Cognitive Revolution (pdf) that ended the reign of behaviorism in American psychological research and put cognition at the center of the field. Discovery Learning is a method of inquiry-based instruction, discovery learning believes that it is best for learners to discover facts and relationships for themselves. Bruner is one of the pioneers of cognitive psychology in the United States, which began through his own early research on sensation and perception as being active, rather than passive processes. Bruner's theory of constructivist learning is

based on the idea that learners actively construct their own understanding. He thought education should focus on discovery learning, where students are ... 3 days ago · Bruner (1983) argued that children do not learn language in isolation; caregivers provide structured interactions that scaffold acquisition.
