Objective CAE Workbook Felicity O'Dell
2008-01-10 This course has been revised for the updated CAE exam syllabus to be introduced in December 2008. It contains 30 short units which take a fresh approach to a wide variety of topics and exam-related genres useful for the exam. Authentic language examples illustrate a wide range of real English usage and a Grammar Folder appendix provides further examples and explanations. The course is written by experienced authors who have an in-depth knowledge of the CAE exam, and contains material informed by the Cambridge Learner Corpus which highlights typical mistakes made by CAE candidates. Updated syllabus to correspond to the new December 2008 exam syllabus. 'Writing Folders' develop the full range of writing skills needed for the CAE exam. 'Exams Folders' familiarise candidates with exam task types. A 'Grammar Folder' appendix provides further explanations and examples. Regular revision units measure students' progress and recycle grammar and vocabulary. Corpus-informed to make students aware of common mistakes and to present the most authentic, up-to-date language.

SLA Research and Materials Development for Language Learning Brian Tomlinson 2016-05-20 SLA Research and Materials Development for Language Learning is the only book available to focus on the interaction between second language acquisition theory and materials development for language learning. It consists of contributions written by experts in SLA, experts in materials development, researchers who have expertise in both fields, and introductions and conclusions by the editor. The book is organized into four major sections - position statements; materials driven by SLA theory; evaluations of materials in relation to SLA theory; and proposals for action - that offer a diverse range of perspectives while maintaining a cohesive and comprehensive overview on the subject. This book is ideal for post-graduate courses in applied linguistics and second language acquisition and for researchers interested in the relationship between SLA and materials development.
