Adapted Physical Activity Quarterly 2001 Reconceptualizing Physical Education through Curricular and Pedagogical Innovations

Joy Butler 2015-07-26 For more than a century, formal education has been struggling to redefine itself in response to shifting societal needs, new research into human learning, and emergent understandings of how the world works. Clearly it's difficult to offer advice that is appropriately responsive across this range of influence. The collected chapters in this book manage to do that by discarding the popular habit of thinking about Physical Education in terms of opportunities to let off steam, or otherwise satisfy the needs of an easily distracted body. Rather, the gendered, acculturated, complex body serves as the site of

possibility, thus framing hopeful, rich, and timely conceptions of learners, learning, and teaching.
