**ENGLISH FOR BUSINESS COMMUNICATION** Sri Endah Tabiati

2024-12-24 In very general terms, Business English is defined as a specialized area of English relating to the language used in business. Business English is a branch of ESP (English for Specific Purposes). In most general terms, business is an economic activity, which is related with continuous and regular production and distribution of goods and services for satisfying human wants. Thus, Business English is primarily concerned with the vocabulary of all sectors of market economy: setting up and running businesses, production, management, company structure, commerce, market structure, labor market, marketing, accounting, banking, financial markets, transport and logistics. The grammar and the vocabularies used in business English are no different from those used in general English. But in communication in English we selected grammar and vocabularies commonly used in Business. One typical feature of Business English is formal style and lack of emotions. In Business English, words have a fixed meaning and purely denotative function. Concepts are expressed in the shortest possible way. Within the confines of Business English, or any other specialist language, meaning is not context-dependent This book contains several strategies to engage in communication in Business smoothly. It guides the students who later become business practitioners to communicate in English orally or in a written form when doing business activities.. The purpose of using English is specifically for communication about business in English, In constructing the book the writers take into account the educational point a view, meaning the strategy making the students learn business English easily and quickly
