Medical-Surgical Nursing E-Book Adrienne Dill Linton 2022-05-01 Provide quality nursing care for adults with medical-surgical and psychiatric disorders! Building upon the fundamentals of nursing, *Medical-Surgical Nursing, 8th Edition* helps you master the role and responsibilities of the LPN/LVN in medical-surgical care. The text addresses the special problems of older adult patients, then covers each major disorder by body system, presenting patient problems, goals, outcome criteria, and

nursing interventions. As LPN/LVNs do not formulate NANDA diagnoses, the book is organized by patient problems rather than NANDA nursing diagnoses. Written by noted educators Adrienne Dill Linton and Mary Ann Matteson, this text helps you build the clinical judgment skills you need to succeed on the Next-Generation NCLEX-PN® examination and in nursing practice.

The Trained Nurse and Hospital Review 1919 A monthly magazine of practical nursing, devoted to the improvement and development of the graduate nurse.

Emergency Care and First Aid for Nurses Philip Jevon 2006-11-09 This portable, quick reference provides comprehensive coverage of first aid procedures and is highly illustrated. Its aim is to enable nurses to effectively and safely provide first aid outside their clinical working environment. However, the principles described will also be useful within the hospital setting and a section at the end of each chapter will describe

the appropriate treatment once the patient reaches A&E.

Study Guide for Introduction to Medical-Surgical Nursing - E-Book

Adrienne Dill Linton 2013-10-30 Student-friendly and easy to use, the Study Guide for Introduction to Medical-Surgical Nursing, 5th Edition, is designed to help you master content and evaluate your progress through practical, useful exercises and activities, including a wealth of multiple-choice and alternate-format questions. This edition places an increased emphasis on higher-level

application questions, including exercises to encourage practice in setting priorities, to prepare you to transfer your knowledge of medical-surgical concepts to patient care in the clinical setting. Helps you hone critical thinking skills essential for success on licensure exams and in clinical practice. Reinforces textbook content and provides ample opportunity for self-assessment with a wide variety of learning activities, including matching (key term and vocabulary review), completion, listing, labeling (illustrations), ranking/ordering, and application questions for textbook nursing care plans. Includes textbook page references, making self-assessment easier and faster. Emphasizes application of nursing concepts with new knowledge and comprehension exercises and activities that ask you to apply your knowledge to patient care situations. Features a new section at the end of each chapter: Challenge Yourself! Getting Ready for the NCLEX includes both standard multiple-choice and alternate-

format questions (over 1,800) that test your knowledge of chapter content while providing practice for the Boards. Provides valuable practice in prioritizing (deciding what to do first) and assignment (giving specific tasks to health care providers who may be supervised by LPNs) -- skills that are essential for providing effective nursing care and are covered on the NCLEX-PN Examination. Links you to online Evolve resources, where you'll find an additional set of review questions, encouraging utilization of and familiarity with an electronic format.

Introduction to Medical-Surgical Nursing

Adrienne Dill Linton, PhD, RN, FAAN 2015-02-06

The leading medical-surgical text for LPN/LVN students, Linton's *Introduction to Medical-Surgical Nursing*, 6th Edition offers just the right level of information to equip today's students to effectively care for adults and older adults. Covering both medical-surgical and

psychiatric mental health conditions and disorders, this comprehensive text addresses the LPN/LVN's role in a variety of care settings, including acute care and long-term care, with a special emphasis on assignment and supervision responsibilities. It also emphasizes culturally competent care and holistic nursing, while thoroughly covering all relevant NCLEX-PN test plan content. No other resource offers the breadth of topics at a level that is so perfectly tailored to the LPN/LVN student. Foundational units on basic concepts related to the health care system, care settings, the nursing process, leadership, nutrition, the older adult, growth and nutrition, legal/ethical considerations, evidence-based nursing care, and many more essential topics, avoid repetition later in the text and create a foundation to build your understanding of disorders by body system. Safety alerts are highlighted throughout the text with a Safety Considerations icon. A separate unit on psychiatric mental health nursing covers

psychosocial responses to illness, psychiatric disorders, and substance abuse - eliminating the need for a separate psychiatric mental health nursing text. Content related to the NCLEX-PN test plan is emphasized throughout the text, including health promotion, nutrition, legal/ethical issues, HIPAA, and prevention of medication/medical errors. Separate chapters on common, high-profile disorders (including hypertension, diabetes, and shock), provide an in-depth understanding for patient care. Focus on assignment and supervision helps you assign tasks to nurse assistants, patient care techs, and unlicensed assistive personnel, and makes sure they understand the difference between delegation, management, supervision, and assignment of tasks on the health care team. UNIQUE! In-depth pharmacology coverage includes: the Pharmacology Tutorial covering drug classifications, how drugs work, and nursing responsibilities; Pharmacology Capsules boxes providing medication information,

precautions for use, interactions, and side/adverse effects; and Pharmacology and Medications tables including classification, use/action, side/adverse effects, and nursing interventions. A separate unit on gerontologic nursing provides comprehensive coverage of the care of the older adult and related disorders. No other LPN/LVN med-surg text offers as much coverage of this primary patient group. Diagnostic Tests and Procedures tables offer quick reference to MRI, CT, Doppler flow, lumbar puncture tests for neurologic disorders, and much more. Health Promotion Considerations boxes highlight timely wellness and disease prevention topics. Patient Teaching Plans provide bulleted lists of nursing instructions for patients, stressing the role and responsibility of the LPN/LVN to reinforce patient education. Nutrition Considerations boxes are spotlighted at appropriate points throughout the text to emphasize the role that nutrition plays in disease and nursing care.

Nursing care plans reinforce the nursing process and focus on critical thinking. Cultural Considerations boxes discuss the importance of providing culturally-competent care related to various clinical situations. Put on Your Thinking Cap boxes allow you to pause and consider the practical implications of what you have just read. Get Ready for the NCLEX-PN Examination! sections at the end of chapters include key points, review questions, and case studies that address the various NCLEX Client Needs categories. NEW! Continued emphasis on evidence-based practice and the most current research findings include specific examples of how scientific evidence can justify and support patient care. NEW! Updated nursing diagnoses all reflect the most current NANDA listings for NCLEX compliance.
