

Quality Assurance Handbook 2016 17

Edexcel Btec Lcci

Handbook of Quality Assurance for University Teaching Roger Ellis 2018-07-03 This practical and authoritative handbook provides a comprehensive overview of the issues and approaches to assuring quality in university teaching.

Including contributions from major international figures, the book contains a wealth of ideas and practical advice to help universities commit to quality in teaching and offers insights into how the topics raised can be directly applied. The book initially identifies some of the key issues surrounding the topic, such as the evidence-based identification of teaching quality; the training of university lecturers and faculty; external and internal quality assurance; the tension between professional autonomy and governmental regulation; and the involvement of students in developing quality.

It then moves on to present ideas and initiatives to address these problems, tackling the subject through four sections: Assuring Quality - questioning what quality assurance means and how it might be practised; Identifying Quality - examining what knowledge exists at present and how it might be further researched; Developing Quality - investigating the development of staff through teacher training and appraisal; Case Studies of Quality Assurance - reviewing six case studies of quality assurance in a range of contrasting subjects including the professional subjects of Medicine, Nursing and Teacher Training which are also addressed systemically in the first section. Full of practical advice, *Handbook of Quality Assurance for University Teaching* is an invaluable and unique resource for Faculty, Subject Leaders, University Administrators and

Quality Assessors.

Principles and Practices of Quality Assurance Ann

Gravells 2016-09-07 This is a

core text for anyone training to

be (or working as) an internal

or external quality assurer in

the further education and skills

sector. It has all the

information you need to work

towards the quality assurance

units for qualifications such as:

The Certificate and Diploma in

Education and Training, or the

quality assurance units of the

Learning and Development

(TAQA) qualification. The book

takes you through all the

information you need to know,

opening up the topic for

learning in an easily accessible

way. Interactive activities are

included throughout, and real

examples of quality assurance in practice are included. The book also includes examples of completed internal and external quality assurance documents. It is a comprehensive text, covering:

- principles of internal and external quality assurance
- planning quality assurance activities
- carrying out quality assurance activities
- risk management
- making decisions and providing feedback
- record keeping
- evaluating practice
- the role and use of technology
- planning, allocating and monitoring the work of others

This is your guide to understanding how to use internal quality assurance activities effectively with assessors, and external quality assurance activities with centre staff.
