Cultural Landscape Report for Hampton National Historic Site, Towson, Maryland: Site history, existing conditions, analysis and evaluation

Christopher M. Beagan 2014

Instructor's Review Copy for the Cultural Landscape James M. Rubenstein 2013-01-03 Trusted for its timeliness, readability, and sound pedagogy, *The Cultural Landscape: An Introduction to Human Geography* emphasizes the relevance of geographic concepts to human challenges. The relationship between globalization and cultural diversity is woven throughout; Rubenstein addresses these themes with a clear organization and presentation that engages students and appeals to instructors. The 11th Edition focuses on issues of access and inequality to discuss negative trends (such as the economic downturn, depleting resources, and human-caused climate change) as well as positive steps taken (sustainability, technology, regime change, women's rights, and more). An updated design is optimized for eBooks and more effective student learning. The cartography and photos are fully updated, along with the text's robust technology package. This edition is available with MasteringGeography(tm), which includes MapMaster(tm) interactive maps and videos. The Mastering platform is the most effective and widely used online tutorial, homework, and assessment system for the sciences.

The Human Mosaic Mona Domosh 2009-02-15 The Human Mosaic has always been built around five themes. In the new edition, these themes, modified to reflect changes both in the discipline and in the world, are: Region; Mobility; Globalization; Nature-culture; and Cultural landscape. These five themes are introduced and explained in the first chapter and serve as the framework for the 11 topical chapters that follow. Each theme is applied to a variety of geographical topics: demography, language, ethnicity, politics, religion, agriculture, industry, the city, and types of culture.

Cultural Landscape Report for Chatham, Fredericksburg & Spotsylvania National Military Park, Stafford County, Virginia

Christopher M. Beagan 2019 "A cultural landscape report is the primary document used by the National Park Service for management of its historically significant landscapes. This report has been developed consistent with the methodology outlined in 'A Guide to Cultural Landscape Reports : Content, Process, and Techniques.' This report builds upon previous documentation, including the park's enabling legislation, National Register of Historic Places documentation (2011 draft), and 'General Management Plan and Environmental Impact Statement' (2013 draft). Previous cultural landscape research, documentation, and recommendations for Chatham include a 'Historic Structure Report and Preliminary Grounds Study' (1978), 'Preliminary Historic Resource Study' (1982), 'Historic Structure Preservation Guide : Chatham Garden' (1985), and 'Chatham : A Landscape Introduction' (2006). Additional research for this report has been undertaken at a thorough level of investigation, which involves review of all available historic sources, including primary and secondary source material. These sources are included in the references section. This report is organized into four chapters beginning with a detailed site history that traces the physical evolution of the Chatham landscape, followed by up-to date documentation of the existing conditions, an analysis and evaluation of the significance and integrity of the Chatham landscape based on existing National Register of Historic Places documentation, and treatment recommendations that provide guidance for the long-term management of the landscape. Additional detailed information is included in appendices, including a core area tree inventory and vegetation inventory for the walled garden"--

Cultural Landscape Report for Hampton National Historic Site, Towson, Maryland: Treatment and record of treatment

Christopher M. Beagan 2014

Cultural Landscapes Richard W. Longstreth 2008 Preservation has traditionally focused on saving prominent buildings of historical or architectural significance. Preserving cultural landscapes-the combined fabric of the natural and man-made environments-is a relatively new and often misunderstood idea among preservationists, but it is of increasing importance. The essays collected in this volume-case studies that include the Little Tokyo neighborhood in Los Angeles, the Cross Bronx Expressway, and a rural island in Puget Sound-underscore how this approach can be fruitfully applied. Together, they make clear that a cultural landscape perspective can be an essential underpinning for all historic preservation projects. Contributors: Susan Calafate Boyle, National Park Service; Susan Buggey, U of Montreal; Michael Caratzas, Landmarks Preservation Commission (NYC); Courtney P. Fint, West Virginia Historic Preservation Office; Heidi Hohmann, Iowa State U; Hillary Jenks, USC; Randall Mason, U Penn; Robert Z. Melnick, U of Oregon; Nora Mitchell, National Park Service; Julie Riesenweber, U of Kentucky; Nancy Rottle, U of Washington; Bonnie Stepenoff, Southeast Missouri State U. Richard Longstreth is professor of American civilization and director of the graduate program in historic preservation at George Washington University.

The Cultural Landscape James M. Rubenstein 2011 The Cultural Landscape introduces geography as a social science by emphasizing the relevance of geographic concepts to human problems. The relationship between globalization and cultural diversity underlies the material and pedagogy throughout reinforces geography skills. This book, trusted for its timeliness and readability, introduces geography by emphasizing the relevance of geographic concepts to human problems. Two years after Rubenstein's Update Edition was created to encompass the events of September 11, 2001, this revision also begins the careful process of putting those events into perspective. It provides new Global Forces and Local Impacts boxes in each chapter that explore in depth an issue related to chapter material, focusing on particular regions of the world. It includes new material on medical geography, terrorism, mineral resources, sustainable development, conservation, and biodiversity. The book also presents new information on gender differences in development, and expands material on ethnicity, relating ethnicity problems to political conflict.

The Cultural Landscape

James M. Rubenstein 1996

The Cultural Landscape Hilary H. Birks 1988 The Cultural Landscape - Past, Present and Future considers different aspects of man's intervention with natural vegetation and the landscape resulting from a long equilibrium of co-existence. These landscapes are not stable, and the recent and ever accelerating changes in technology and life-style have increasingly affected many ancient landscapes, as old land-use practices are abandoned and traditions forgotten. The papers in this book describe and trace the development of cultural landscapes in different climatic and biogeographical regions in Europe. Remnants

of traditional land-use still remaining are described, particularly from Western Norway, where traditions have lingered because the rugged topography of the region is inimicable to high-technology. Each chapter is by an expert in the field. The topics cover the documentation of present cultural landscapes, their maintenance and restoration, and the history of the development of cultural landscapes from the Stone Age onwards, linking the intensity of landscape utilization with population dynamics and technological attainments. The disciplines involved include vegetation science, vegetation history, ecology, palaeoecology, archaeology, sociology, geography and history.

European Vistas, Cultural Landscapes Fronia E. Wissman 2000 This work discusses the changing interrelationships of humanity and the environment - both natural and built - over five centuries. It discusses ways that landscapes have been used in culture, from the use of environment as a backdrop for figures, to the practical use of renderings as maps.
