How can I display JSON in an easy-to-read (for human readers) format? I'm looking primarily for indentation and whitespace, with perhaps even colors / font-styles / etc. I've opened VS Code's settings.json file many times, and each time I forgot where it was. If I go to File → Preferences → Settings, I get the graphical settings interface (screenshot). I want to open JSON is used a lot for application data and configuration settings, so comments are necessary now. The "official spec" is a nice idea, but it's insufficient and obsolete, so too bad. Minify your JSON if you're ... 963 The org.json library is easy to use. Just remember (while casting or using methods like getJSONObject and getJSONArray) that in JSON notation [...] represents an array, so library will ... Here the message contains single quotation mark, which is same

as the quotation used in JSON. What I do is fill up a string from user inputs such as message. So, I need to escape those kind of special ... Of course, the correct MIME media type for JSON is application/json, but it's necessary to realize what type of data is expected in your application. For example, I use Java Ext GWT and the server ... JSON (JavaScript Object Notation) is a lightweight format that is used for data interchanging. It is based on a subset of JavaScript language (the way objects are built in JavaScript). As stated in the MDN, ... Sep 4, 2020 · Note: This won't prettify the json representation. To do so, one can previously rely on an external service such as jsbeautifier.org and paste the prettified result in the wiki. If you have control over the generated json, for example, you provide data to other systems in json format,

choosing 8601 as the date interchange format is a good choice. Do standards or best practices exist for structuring JSON responses from an API? Obviously, every application's data is different, so that much I'm not concerned with, but rather the "response
