Real situations, real language, real outcomes. The second edition of "Outcomes" is the only course that is consistently focused on helping students achieve the real world communicative outcomes they want and need. This lexically rich course emphasises students' need to have the conversations in English that they would in their own language. This new edition contains more contemporary and global content, reflecting English as it is used in the world and is visible via rewritten texts and new National Geographic photos and videos. There is a strong

emphasis on real and natural English usage so students can develop the English language skills necessary for the real world.

## **Second Language Learning and Language Teaching**

Vivian Cook 2026-01-29 A

classic introduction to second language acquisition and its application to language teaching, the sixth edition of *Second Language Learning and Language Teaching* has been extensively revised to reflect the evolving realities of multilingual classrooms and global communication.

Drawing on the latest research,

it offers clear explanations of key theoretical concepts alongside practical insights for language teaching. Written by leading expert Vivian Cook and sensitively updated by Dick Smakman, the book critically engages with native-speaker models, emphasising intelligibility, meaningful communication, and the diverse ways in which people learn additional languages. A brand-new chapter on the changing classroom explores current pedagogical challenges and emerging learner profiles, while updated content is organised thematically for greater clarity. Designed for readers with no prior background in second language research, this accessible and comprehensive text is ideal for students of applied linguistics, TESOL, and language education more broadly. Pedagogical features include focusing questions, an expanded glossary, and support materials for both students and instructors.

Tomlinson 2013-12-19 There have been a number of books published on various aspects of materials development for language teaching but *Developing Materials for Language Teaching* is the only one which provides a comprehensive coverage of the main aspects and issues in the field. This second edition brings it completely up to date and expands on the original book. It deals with advances in IT and an increasingly globalized world. It is the only publication which views current developments in materials development through the eyes of developers and users of materials from all over the world. In doing so it applies principles to practice in ways demonstrated to facilitate the effectiveness of language learning materials. The chapters are written so that the book provides critical overviews of recent developments in materials development and at the same time acts as a stimulus for development and innovation in the field. It is intended both for

use as a course book on postgraduate and teacher training courses and as a resource for the stimulus and refreshment of teachers, publishers and applied linguists in the field. The book contains updated versions of many of the chapters in the 2003 edition plus new chapters on corpus-informed materials development, materials development for blended learning, materials development for EAP, materials development for ESOL and materials development for young learners.

## **Intercultural Communication. New Perspectives from ELF**

Enrico Grazzi 2016-05-01 La comunicazione interculturale è il filo rosso che attraversa quasi tutti i contributi di questo volume. Negli ultimi venti anni tale nozione è stata esplorata e, più recentemente, rivisitata in una prospettiva ELF in diverse aree di ricerca come, ad esempio, la comunicazione strategica d'affari, la consapevolezza interculturale, l'insegnamento delle lingue, la formazione docenti, i discorsi socioculturali, così come gli stessi studi interculturali.

Scopo di questo libro è fornire ai lettori una selezione di articoli recenti e stimolanti, nonché contribuire alla fiorente crescita di pubblicazioni su ELF. Il libro è diviso in tre parti, che coprono tre temi principali: 1) ELF, insegnamento delle lingue e la formazione dei docenti; 2) La comunicazione in contesti migratori e plurilingui; atteggiamenti e interazioni; 3) ELF nel mondo degli affari e in quello universitario. Il volume

contiene ventiquattro capitoli scritti da studiosi e ricercatori che hanno partecipato al Convegno Internazionale ELF6, svoltosi a Roma presso l'Università Roma Tre nel 2013. I contributi si fondano sulle presentazioni da loro fatte in occasione di tale convegno. DOI:
