These books will act as tools for preparation and revision for students. These books have an edited Answer Guide for each paper based on the marks scheme written by CIE Principal

Software for Teaching Science Roger Frost 1998

A-level Chemistry E. N. Ramsden 2000 Each topic is treated from the beginning, without assuming prior knowledge. Each chapter starts with an opening section covering an application. These help students to understand the relevance of the topic: they are motivational and they make the text more accessible to the majority of students. Concept Maps have been added, which together with Summaries throughout, aid understanding of main ideas and connections between topics. Margin points highlight key points, making the text more accessible for learning and revision. Checkpoints in each chapter test students' understanding and support their private study.

Learning to Teach Science in the Secondary School Jenny Frost 2005 The second edition of this popular student textbook presents an up-to-date and comprehensive introduction to the process and practice of teaching and learning science. It takes into account changes in science education since the first edition was published, including more recent curriculum reform. This new edition builds upon the success of its predecessor, introducing new material on the use of ICT in science teaching, as well as providing sound, informative and useful discussion on : managing your professional development; knowledge, concepts and principles of science; planning for learning and teaching in science; practical teaching strategies; selecting and using resources; assessment and examinations; and the broader science curriculum. Pure Maths Peter Sherran 1997 A good grade at A Level or Scottish Higher Grade can depend on the student's ability to tackle exam questions confidently and to understand the technique involved in answering questions accurately. The aim of this text is to help students learn how to answer questions in an exam environment. It provides an insight into the mind of the examiner, highlighting what makes a good answer, how marks are allocated, and what the most common mistakes are. Questions are taken from past papers, or newly written by the authors, with revision summaries, answers with full working and examiner's tips. They are an ideal complement to A Level study guides.
