Tragic Method and Tragic Theology Larry D. Bouchard 1989-09-15 The book moves in a nonreductive way between literary and theological criticism to show how drama and religious thought discern the experience of evil. &"Tragic method&" refers to how tragic art functions as inquiry; &"tragic theology&" refers to how drama and theology render in thematic or symbolic form certain irreducible dimensions of evil and negativity. Bouchard defines no single tragic method or any single view of evil but searches for the distinctive interplay of tragic method of theology in each dramatist. The work opens by scrutinizing certain important interpretations of Greek tragedy. Paul Ricoeur's interpretation of &"the Wicked God and the Tragic Vision&" receives major focus, as does Sophocles, who as a tragedian dramatized the action of inquiry and interpretation. Bouchard then examines Augustine's views of evil and sin, Reinhold Niebuhr's critique of the ironies of history, and Tillich's conceptions of the demonic. By interpreting tragedy in terms of sin or the effects of sin, each theologian resists implications in his own thought pointing to a less resolvable tragic theology. And yet these theologians also contribute very creative understandings of the irreducible character of evil and tragic experience. Substantive and original readings of three playwrights are offered: Rolf Hochhuth's tragedy of vocation, *The Deputy*, Robert Lowell's trilogy of American historical blindness, *The Old Glory*, and Peter Shaffer's dreams of tragic awareness and accountability in *Equus* and *Amadeus*, revealing new permutations of the irreducibility of evil in contemporary Christian and Jewish religious thinkers who may be helpful in this task, and concludes with a description of the experience of perplexed thought, self-critical in view of tragedy's witness to irreducibility of evil.

*Biographical Plays about Famous Artists* Daniel Meyer-Dinkgräfe 2005

Since the late 1970s, more than 200 biographical plays about famous artists (composers, fine artists, poets, actors etc.) were written and staged in the United Kingdom. The book analyses the range of these plays, arguing that the dramatists often place the main artist character(s) in an adverse situation, inward (e.g., mental illness) or outward (a personal enemy, or an anonymous power, such as war). Against the background of such adverse forces, the artist characters tend to come across as flawed human beings. At the same time, most plays take care to provide good insights into the artists's (TM) genius and their artistic integrity in the face of the adversity. The book also addresses the question why there have been so many biographical plays about famous artists over the past twenty-five years, providing answers in the context of theatre history and developments across academic disciplines and society as a whole.

Modern Drama Scholarship and Criticism 1981-1990 Charles A.

Carpenter 1997 A selective list of publications for the period, offering some 25,200 entries (no annotations) arranged by nationality and linguistic groups. Most entries concern literary currents in drama since the last third of the 19th century, playwrights who lived at least part of their lives in the 20th century, noted directors, and performance theory. For students and scholars of modern dramatic literature. While annual supplements of recent publications appear in the journal *Modern Drama*, new compilers took a publication date of 1991 as their starting point for listings, leaving some 2,000 items collected after 1992 appearing only in this volume.
