*Sport, Revolution and the Beijing Olympics* Grant Jarvie 2008-04-01 The 2008 Olympic Games will be held in Beijing but many human rights activists support a boycott. They liken the circumstances to previous governments that used the games to glorify their regimes - most notoriously the Nazis in 1936. What has led to this perception and is it fair? *Sport, Revolution and the Beijing Olympics* is a cultural history of sport in China and challenges many such ingrained Western assumptions. The authors unpick the relationship of sport to imperialism and revolution, and examine its significance in both China and Taiwan at governmental and everyday levels. In the process, they successfully debunk harmful myths, such as the prevalence of drugs in Chinese sport among women athletes, and present a balanced view that is a much-needed corrective to popular understanding.

**Asian American Fiction, History and Life Writing** Helena Grice 2012-11-12 The last ten years have witnessed an enormous growth in American interest in Asia and Asian/American history. In particular, a set of key Asian historical moments have recently become the subject of intense American cultural scrutiny, namely China's Cultural Revolution and its aftermath; the Korean American war and its legacy; the era of Japanese geisha culture and its subsequent decline; and China's one-child policy and the rise of transracial, international adoption in its wake. Grice examines and accounts for this cultural and literary preoccupation, exploring the corresponding historical-political situations that have both circumscribed and enabled greater cultural and political contact between Asia and America.

**The Divine Body in History** Ankur Barua 2009 This is a study in the field of comparative philosophy of religion. It initiates a dialogue between St Augustine and Rāmānuja by focusing on two central themes - time and embodiment - that play a crucial role in their thought. The elaborations of these two themes by St Augustine and Rāmānuja have continued to exert a tremendous influence on the histories of European thought and of Hindu movements centred around the notion of bhakti. The examination of the symbolism through which these thinkers articulate their understanding of time and embodiment also challenges certain stereotypes related to classical Indian thought and Latin Christendom, such as the former's lack of historical consciousness and the latter's denigration of the human body. This study shows how the 'west' and 'east' have traditionally engaged with concepts such as temporality, progress and the metaphysical status of finite and bio-physical reality.

*Intellectual History in Contemporary South Africa* M. Eze 2016-04-30 In examining the intellectual history in contemporary South Africa, Eze engages with the emergence of ubuntu as one discourse that has become a mirror and aftermath of South Africa's overall historical narrative. This book interrogates a triple socio-political representation of ubuntu as a displacement narrative for South Africa's colonial consciousness; as offering a new national imaginary through its inclusive consciousness, in which different, competing, and often antagonistic memories and histories are accommodated; and as offering a historicity in which the past is transformed as a symbol of hope for the present and the future. This book offers a model for African intellectual history indignant to polemics but constitutive of creative historicism and healthy humanism.

*Reimagining Philo* Torrey Seland 2025-09-22 *Reimagining Philo* adopts an experimental approach in multiple respects. Some readers might question the use of postcolonial theories and viewpoints in examining Philo of Alexandria: Is Philo not to be regarded as one of the most integrated Jews living outside of Judea? Is he not typically described as the first-century Jewish thinker most affected by Greco-Roman intellectual traditions, a versatile philosopher significantly influenced by various schools of

thought—Platonism, Stoicism, and Epicureanism, among the most notable? While the impact of philosophical schools on Philo is unquestionable, it would be inaccurate to define his primary intellectual identity solely from this perspective. Philo was also a committed follower of Judaism. So he should be comprehended as a Torah observant Jew, a Jewish scholar, a politician, and an apologetic thinker and writer, interacting with various intellectual trends of his era. Hence, this book aims to investigate characteristics of the Roman Empire as a colonizing force, its interactions with Jewish matters in Alexandria, and how these and other elements influenced Philo's view of the empire. A key argument suggests that Philo's perspective underwent a significant transformation following the pogrom in Alexandria in 38 CE and his visit to imperial Rome, resulting in a fresh understanding of the empire and the status and roles of the Jews within that context.

**Postcolonial Wales** Jane Aaron 2005 A collection of diverse essays discussing the culture and politics of post-devolution Wales. 10 black-and-white illustrations.

*Interdisciplinary Measures* Graham Huggan 2008 Where now for postcolonial studies? That is the central question in this new volume from one of the field's most original thinkers. Huggan's answer is interdisciplinarity and here he sets out a series of conversations between literary studies and other disciplines, notably geography, environmental studies, history and anthropology. Huggan aims to establish an alternative trajectory through the field of postcolonial literary/cultural studies that is alert to similar kinds of work being done in and across other disciplines; and reflects on possible futures for postcolonial studies that move beyond.

**Beginning Film Studies** Andrew Dix 2008-07-15 *Beginning Film Studies* offers the most lucid, thorough and up-to-the-minute introduction to this popular subject. Written with verve and wit, it reviews a wealth of significant trends in the discipline's past and present, and looks ahead to new directions for film studies. The discussions are enlivened by references to film cultures as diverse as "classical" Hollywood, the French "New Wave" and India, to stars like Johnny Depp, genres such as noir, romance and action, as well as more "geographical" turns such as production and consumption. Comprehensive and entertaining, it is sure to take its place alongside the popular and bestselling titles already published in this series.

*The Routledge International Handbook of Race, Culture and Mental Health* Roy Moodley 2020-10-27 This handbook presents a thorough examination of the intricate interplay of race, ethnicity, and culture in mental health - historical origins, subsequent transformations, and the discourses generated from past and present mental health and wellness practices. The text demonstrates how socio-cultural identities including race, gender, class, sexual orientation, disability, religion, and age intersect with clinical work in a range of settings. Case vignettes and recommendations for best practice help ground each in a clinical focus, guiding practitioners and educators to actively increase their understanding of non-Western and indigenous healing techniques, as well as their awareness of contemporary mental health theories as a product of Western culture with a particular historical and cultural perspective. The international contributors also discuss ways in which global mental health practices transcend racial, cultural, ethnic, linguistic, and political boundaries. The Routledge International Handbook of Race, Culture and Mental Health is an essential resource for students, researchers, and professionals alike as it addresses the complexity of mental health issues from a critical, global perspective.

*Missiological Mutilations - Perspective Paralogies* Jørgen Skov Sørensen 2007 Revision of the author's thesis (Ph.D.)--University of Birmingham, 2005.

*A History of the Jews and Judaism in the Second Temple Period, Volume 2* Lester L. Grabbe 2011-10-27 This is the second volume of the projected four-volume history of the Second Temple period. It is axiomatic that there are large gaps in the history of the Persian period, but the early Greek period is possibly even less known. This volume brings together all we know about the Jews during the period from Alexander's conquest to the eve of the Maccabean revolt, including the Jews in Egypt as well as the situation in Judah. Based directly on the primary sources, which are surveyed, the study addresses questions such as

administration, society, religion, economy, jurisprudence, Hellenism and Jewish identity. These are discussed in the context of the wider Hellenistic world and its history. A strength of the study is its extensive up-to-date secondary bibliography (approximately one thousand items).

**Beginning postcolonialism** John McLeod 2013-01-18 Postcolonialism has become one of the most exciting, popular and stimulating fields of literary and cultural studies in recent years. Yet the variety of approaches, the range of debate and the critical vocabularies often used may make it challenging for new students to establish a firm foothold in this area. Beginning Postcolonialism is a vital resource for those taking undergraduate courses in postcolonial studies for the first time and has become an established international best-seller in the field. In this fully revised and updated second edition, John McLeod introduces the major areas of concern in a clear, accessible and organised fashion. He provides an overview of the emergence of postcolonialism as a discipline and closely examines its many established critical approaches while also exploring important recent initiatives in the field. In particular, Beginning Postcolonialism demonstrates how many key postcolonial ideas and concepts can be effectively applied when reading texts and enables students to develop their own independent thinking about the possibilities and pitfalls of postcolonial critique.
