Memoir of Professional Social Workers Dr. Kamlesh Kumar Sahu 2023-02-24 The 'Memoir of Professional Social Workers' is the second volume of the book 'Work and Life of the Professional Social Worker' published by the Indian Society of Professional Work (ISPSW) in the year 2022. We hope this will motivate other professional social workers to write about their own life experiences by themselves or someone else whom they know. Their in-depth experience and enriched knowledge will be advantageous for other professional social workers to learn from their life. The current volume two has fifteen scholarly articles from eminent social work professionals (both educators and practitioners) across the country.

Impact of AI and the Evolution of Future Ghost Kitchens Singh, Kuldeep 2025-04-11 The rise of artificial intelligence (AI) reshapes industries across the globe, and one of the most notable transformations occurs within the food service sector, particularly through the evolution of ghost kitchens. Ghost kitchens, or virtual kitchens, are delivery-only establishments that operate without a traditional storefront, relying heavily on technology and AI to operate. As AI advances, its integration into ghost kitchen models may revolutionize the way food is prepared, delivered, and consumed. From streamlining kitchen workflows to enhancing customer personalization, AI could drive efficiency, reduce costs, and improve the overall dining experience. The convergence of AI with ghost kitchens may be the future of food service, where innovation, automation, and convenience integrate to meet the growing demand for to-go meals in a digital world. **Impact of AI and the Evolution of Future Ghost Kitchens** explores how AI improves cloud kitchens, satisfies client preferences, and manages available resources. It offers guidelines on AI's application for cloud kitchen systems and examples of its effective implementation. This book covers topics such as customer experience, digital technology, and food delivery, and is a useful resource for business owners, food service professionals, computer engineers, academicians, researchers, and data scientists.

Advanced Interdisciplinary Applications of Large Language

Models and AI Agents Biju, Soly Mathew 2025-10-10 The evolution of large language models (LLMs) and AI agents reveals a new era of interdisciplinary innovation, where the boundaries between fields like healthcare, law, education, and engineering are blurred. These advanced AI systems are being integrated into complex workflows that require reasoning, adaptability, and collaboration across knowledge areas. From assisting in medical diagnostics and legal research to enabling personalized learning and automating scientific research, LLMs and AI agents transform how problems are approached and solved. Their ability to process information, understand context, and generate responses positions them as powerful tools for handling challenges that require expertise. **Advanced Interdisciplinary Applications of Large Language Models and AI Agents** delves into the cutting-edge intersection of AI, machine learning, and data science. It explores the advanced applications of large language models (LLMs), AI agents, sentiment analysis, fuzzy logic, and computer vision. This book covers topics such as automation, business intelligence, and sentiment analysis, and is a useful resource for business owners, medical professionals, educators, computer engineers, academicians, researchers, and data scientists.

AI and Digital Innovation in Healthcare Reform: From Policy to Practice Djakeli, Kakhaber 2026-04-22 AI and digital innovation bridge the gap between healthcare policy design and real-world practice. From predictive analytics and telemedicine to automated diagnostics and data-driven decision-making, these technologies reshape how care is delivered, managed, and evaluated. As governments and institutions implement policies to modernize healthcare systems, the integration of AI introduces opportunities for improved efficiency and outcomes, and challenges related to ethics, equity, and data privacy. Understanding how these innovations impact everyday use may build more responsive, accessible, and sustainable healthcare systems. **AI and Digital Innovation in Healthcare Reform: From Policy to Practice** explores how AI and digital technologies shape healthcare reform from policy development to practical implementation. It examines the benefits and challenges of integrating these innovations into healthcare systems, including their

impact on efficiency, accessibility, ethics, and patient outcomes. This book covers topics such as social media, women's health, and medical technologies, and is a useful resource for medical and healthcare professionals, engineers, academicians, researchers, and scientists. **Integrating Legal Compliance With Sustainable Development Goals** Ghazali, Farahdilah 2025-07-03 Integrating legal compliance with Sustainable Development Goals (SDGs) aligns national and corporate governance with global priorities. As governments, businesses, and society strive to meet sustainability goals, ensuring that legal frameworks support environmental protection, social equity, and economic resilience become essential. Legal compliance now plays a strategic role in sustainability by enforcing regulations, setting standards, and promoting accountability. This integration strengthens law while enabling a more structured and equitable approach to achieving long-term sustainability. **Integrating Legal Compliance With Sustainable Development Goals** explores the convergence of law, sustainability, and business strategy, providing a roadmap for integrating legal compliance with sustainable development goals. It examines the tools and knowledge needed to implement sustainable practices that comply with legal standards and drive positive change, offering insights for legal reforms that further support sustainable development. This book covers topics such as sustainability, urban planning, and international relations, and is a useful resource for business owners, government officials, policymakers, academicians, researchers, and scientists.
