Every Day is Game Day Mark Verstegen 2014 Noted sports performance expert and bestselling author of Core Performance, Verstegen reveals the training program he uses with elite athletes and U.S. Special Operations Forces. As founder and president of EXOS, Mark Verstegen has trained the world's top athletes in sports including the NFL, Major League Baseball, and worldwide soccer powers, along with the most elite "tactical athletes"—U.S. Special Operations Forces personnel. More than a decade ago, Verstegen's groundbreaking book Core Performance revolutionized the fitness industry and made core conditioning and functional training mainstream. In his new book, Verstegen presents his most hardcore program yet: a demanding system that challenges readers to perform at the highest level. Borrowing heavily from his regimens used by the military and NFL-combine hopefuls, Verstegen breaks the system down into tough but easy-to-follow workouts that help readers become faster, more explosive, and more powerful while moving with greater efficiency and with far less potential for injury. If you've ever wanted to perform like the top sports champions or elite fighting forces, this is the book for you.

All the other existing training systems don't train the muscles INTENSELY enough to properly stimulate an adaptive response, i.e. GROWTH. Only HIGH-INTENSITY BODYBUILDING can make a drug-free, natural athlete actualize his FULL muscular and genetic potential. EVERY RULE AND PRINCIPLE OF

IMPORTANCE IS COVERED INSIDE THIS BOOK. The time has come for you to: READ and RE-READ this book MASTER the MOST POWERFUL training system ever conceived and UNLEASH your FULL muscular and genetic potential. "

Tactical Barbell 2 K. Black 2016-10-10 You have something very valuable in your hands. A lifetime's worth of training knowledge, drawn from the world's most extreme arenas. Lessons learned and best practices from military operators, tactical law enforcement, combat athletes, and others that rely on their physical abilities to survive and thrive in very harsh and unforgiving environments. Where there's more at stake than winning a

medal, or getting a bruised ego. It's great having a 600lb squat and 400lb bench press. However, as an operational athlete, if you can't move, work, or thrive for long periods of time in a multitude of energy demanding environments, you are ineffective. Your big bench is useless; your big squat is useless. Tactical Barbell proposes you work towards being a different kind of athlete. The kind that's not only extremely strong, but also highly conditioned. If you look carefully, you'll see these people all around you. That guy on your Emergency Response Team with the 350lb bench press and a sub 9 minute 1.5 mile run. The old Marine Sergeant that can run 6 miles in under 40 minutes followed by 30 dead-hang pull-ups. So how do you get there? It's not what you think. Popular 'bootcamp' style approaches that throw a lot of push-ups and running at you in a haphazard fashion don't work for long. Sure, you'll break a sweat and release some endorphins. You might even lose a pound or two. But take a good hard look at your progress. For all your effort, are you really that far ahead? To make real progress, you have to look to the approaches used by professionals. Train each attribute you're trying to improve in a progressive manner, using the most effective tools for that particular fitness domain. In TB2, you'll find the structured, three-pronged approach to conditioning we take with tactical athletes. It consists of Base Building, followed by a transition to a more specific continuation protocol. Periodic maintenance of lower-priority domains complete the model. TB2 is the premier training manual for tactical law enforcement candidates, soldiers, and other operational athletes. You will be hard pressed to find a more thorough and effective conditioning program. If you're a results-oriented individual looking for concrete, actionable programming based on cutting edge practices, this book is for you.
