The Critical Partner Michelle Skeen 2011-11-03 When you are in a relationship with a critical partner—someone who constantly blames you and holds you to unrealistic standards—you may feel picked apart, unworthy, and unhappy. You may start to wonder if you'll ever be good enough for your partner. This guide can help you repair your relationship by getting to the root of why your partner criticizes you so that you both can build a more loving and supportive partnership. Based in schema therapy, *The Critical Partner* can help you gradually change unhealthy relationship patterns and help your partner move beyond the need to criticize. Through a series of assessment quizzes and worksheets, you'll learn what's driving your partner's behavior and what makes you vulnerable to critical attacks. You'll also discover alternative coping strategies for deflecting criticism and break the long-standing conflicts that keep you from moving forward as a couple. This book will help you get to the root of the problem so that you can repair your relationship and get the love you want.

The Relaxation and Stress Reduction Martha Davis 1995-12 This workbook is designed to teach you the most popular stress management and relaxation techniques and exercises used today. Consider it your guide to increasing your awareness of your personal reaction to stress and building your sense of control and mastery over the stressors in your life. A basic premise of this workbook is that the benefits of relaxation and stress reduction techniques can only be fully realized after they have been practiced regularly over a period of time. Intellectual understanding of most techniques is of little value, unless accompanied by firsthand experience. Illustrated.

Marriage at the Crossroads Aída Besançon Spencer 2010-02-04 Have you ever wondered how egalitarian and complementarian marriages play out differently on a day-to-day level? In this unique book Aída and William Spencer and Steve and Celestia Tracy, two couples from the differing perspectives of egalitarianism and soft complementarianism, share a constructive dialogue about marriage in practice. They cover a variety of topics like marriage discipleship, headship and submission, roles and decision-making, and intimacy in marriage. Also included are responses from three additional cultural frameworks: North American Hispanic, Korean American and African American. Whether you're still working out your views on marriage or have found an approach you're comfortable with, this book will help you better understand the two perspectives on the ground level. While the theological starting points are different, you may be surprised to see the degree of convergence on practical issues as the dialogue unfolds.

The Publishers Weekly 1994

But I Didn't Mean That! June Paris 2007 If you don't do it yourself, you certainly know someone who is forever putting a foot into his or her mouth. This person has raised the tasteless,

thoughtless, tactless, or otherwise terrifically awful remark into an art form. If there is a wrong place, a wrong time, or a wrong person to whom to say anything, they're on the spot and on the ready. And though we can joke about it (at the right time, of course), careless speech is no laughing matter. Words really can hurt-not only the person at whom they're aimed but the speaker, too, whose relationship, career, and social prospects can all suffer as a result of unmindful speech. Fortunately, this book can help even the most scandalous mis-speaker. It outlines six simple questions, called Q-Points (Questions of Positive Thinking and Speaking) for readers to keep in mind before they speak. Who am I speaking to? What am I not seeing? Where will my words get me? How will the other person react to my words? When do I say it? And why must I say it at all? By coming up with an answer in the moment before speaking, anyone can start to avoid terrible slips in speaking judgment that can hurt themselves and others. *But I Didn't Mean That!* analyzes the most problematic speaking situations to show how the Q-points can be used to start conversing with empathy, confidence, and unimpeachable tact.
