AI-Driven Decision-Making for Diversity, Equity, and Inclusion in Marketing Tarnanidis, Theodore 2026-01-22 Artificial intelligence (AI) reshapes marketing by enabling data-driven decisions that enhance efficiency, precision, and personalization. AI can also become a powerful tool for advancing diversity, equity, and inclusion (DEI) in marketing strategies. By analyzing data, AI uncovers biases, detects underrepresented demographics, and guides inclusive content creation and audience targeting. However, leveraging AI for DEI comes with challenges. Algorithms are only fair if the data utilized is properly monitored, and organizations often risk reinforcing existing biases. When successfully integrated, AI-driven decision-making holds potential to foster more inclusive marketing practices that engage diverse audiences and reflect the values of equity and representation in a global marketplace. *AI-Driven Decision-Making for Diversity, Equity, and Inclusion in Marketing*

explores the connection between generative AI (GenAI) and DEI for marketing decision-making in multicultural domains. It examines how DEI principles can be integrated into GenAI models for more ethical, inclusive, and efficient marketing strategies. This book covers topics such as global business, customer service, and digital marketing, and is a useful resource for business owners, sociologists, computer engineers, academicians, researchers, and scientists.

Campaign Management for Campaign Managers and Middle Management in Digital Marketing, Advertising and Branding Akshat Singh Bisht 2025-10-31

Campaign Management for Campaign Managers and Middle Management in Digital Marketing, Advertising, and Branding is the only book in the world that dives deep into the science of digital marketing campaign optimization and management. While most books merely explain what digital marketing is, this one reveals how

campaigns truly work — how they're built, optimized, and scaled to deliver measurable growth. It's a complete roadmap for those who want to move beyond just running ads and start mastering data-driven, goal-oriented campaign management. Focused primarily on digital marketing campaigns, this book unpacks every layer of the campaign lifecycle — from planning and audience research to execution, testing, performance tracking, and optimization. Readers will learn how to: Design high-performing Google, Meta, and cross-platform campaigns that convert. Analyze campaign data to identify inefficiencies and improve ROI. Apply real optimization strategies using metrics, timing, and behavioral insights. Implement the PSPT Framework (People, Skill, Process, Technology) to reduce errors and enhance campaign output. Build data-backed reports, performance dashboards, and automated optimization loops. Bridge the communication and strategy gap between marketing teams, clients, and decision-

makers. Drawing from real-world case studies and advanced marketing practices, the book highlights how digital campaigns can evolve from simple ad sets into scalable systems that drive brand awareness, engagement, and revenue growth. Whether you're a digital marketing professional, campaign manager, or middle-level strategist, this book equips you with the mindset, frameworks, and tools to master modern campaign management. It's more than a marketing book — it's a complete guide to managing and optimizing digital marketing campaigns with precision, creativity, and intelligence.
