Spanish - Applied New Testament Commentary
StephenThorson TomHale Spanish Language
Edition The Applied New Testament
Commentary is an easy-to-read, down-to-earth
commentary on the text of the New Testament.
It can be used with any version of the Bible and
includes: bull; bull;General Articles on important
aspects of the Christian faith bull;An
Introduction to each book of the New Testament
bull;Word definitions bull;Clear explanations of
Bible text bull;How to apply the Bible to
everyday life "Dr. Tom Hale is an experienced
medical missionary in Nepal, and his
commentary is essentially a missionary's
commentary. Although he has done his biblical
homework, and he thinks theologically, he does
not write from the ivory tower of academia. His
concern is rather for the grass roots of newly
planted churches. He is familiar with the
problems they face and the questions they ask.
He wrestles with the need for cross-cultural
application. He is committed to the unity of the
church and urges us to give one another the
liberty of interpretation in those secondary areas
in which we disagree. And his straightforward,
easy-to-read style includes both a simple
vocabulary and short sentences. Inevitably a
one-man commentary will not please everybody.
But he has struggled to rid himself of bias, so
that there is very much here for all Bible
students to learn, whatever their cultural or
denominational background. In fact the Applied
New Testament Commentary should help to
promote mutual understanding, tolerance and
respect among Christian people." John Stott All
Souls, Langham Place, London

Spanish: Comentario Temático sobre el

Corán (A Thematic Commentary on the Quran)

Shaykh Muhammad al-Ghazali
2014-01-01 Muslims are enjoined, along with the
rest of humanity, to "read" the two great Books
of Revelation and Creation, i.e. the Qur'an and
the natural world. Reading one without the other
will result in an imbalance detrimental to the
existence (and prosperity) of humankind on
earth, indeed to the divine purpose in the
cosmos. A Thematic Commentary by the late
Shaykh al-Ghazali is a significant contribution to
the first reading, i.e. that of the Qur'an- the
repository of divine truth and enlightenment.
Already of course there is a wealth, an
abundance, of exegetical work on the Qur'an.
But while early scholars endeavored to elucidate
many linguistic, historical, and miraculous
aspects of the sacred and challenging text, al-
Ghazali's contribution is somewhat unique (and
modern) in the sense that it focuses on the
organic unity of each surah (chapter)
highlighting the logic or inherent reasoning that
courses through the surah and unifies its various
components and images. No exegesis is by itself
sufficient for a full understanding of the Qur'an.
But this work is an indispensable companion in
the quest for a better comprehension of, and a
closer affinity with, the sacred text.
