**Basel Museum of Ancient Art and Ludwig Collection** Peter Blome 1999 Founded in 1961, the Basel Museum of Ancient Art and Ludwig Collection is one of the many museums in the Swiss city of Basel and a heritage site of national significance. The museum is devoted exclusively to the art of ancient civilizations from the 4th millennium B.C. to the 7th century A.D. The only one of its kind in Switzerland, the museum shows works of art from the Mediterranean region, predominantly from the period from 1000 B.C. to 300 A.D. A central position is occupied by the collection of Greek vases and sculptures and the Ancient Egyptian section. Further objects are from the Near East and Cyprus.

Gods and Heroes in Late Archaic Greek Art Karl Schefold 1992-12-03 This volume is the sequel to Karl Schefold's *Myth and Legend in Early Greek Art*, and the second in his ambitious project to trace the representation of the Greek myths in Greek art from the beginnings down to the Hellenistic period.

**Guide to Research in Classical Art and Mythology** Frances Dodds Van Keuren 1991 Learning to use the research tools to unravel the intricate terminology of classification of antiquities is a formidable task. Van Keuren's work aims to enable students both to use these tools and to devise projects for their own research. After a major reference is presented, handbooks and monographs are successively identified in ways that suggest patterns of information. These patterns will allow students to formulate hypotheses to undertake original research. With use of the library collection, original questions can be asked and answered.

**Classical Myth** Barry B. Powell 2009 Comprehensive and scholarly, this well-designed text presents Greek and Roman myths in a lively and easy-to-read manner. The material has been rearranged to make it easier to find and the new edition has been streamlined. It features fresh translations, numerous illustrations (ancient and modern) of classical myths and legends, and commentary that emphasizes the anthropological, historical, religious, sociological, and economic contexts in which the myths were told. It also provides a cultural context so that readers can see how mythology has influenced the world and how it continues to influence society today.

Heroes Michael John Anderson 2009 "This volume investigates the integral role of heroes in ancient Greek art and culture. More than a hundred statues, reliefs, vases, bronzes, coins, and gems drawn from European and American collections, illustrate the ways in which heroes were represented, why they were important in Greek culture, and what encouraged individuals to seek them out." --Book Jacket.

*Handbook of Classical Mythology* William F. Hansen 2004-06-10 An introduction to the mythological world of the Greeks and the Romans, combined with a chronology of myths and a dictionary of key characters, objects, and events. Handbook of Classical Mythology offers newcomers and long-time enthusiasts new ways to navigate the world of Greek and Roman myths. Written by a foremost mythologist, the book begins by exploring the sources and landscapes from which the myths emerged. It then provides a richly detailed timeline of mythic episodes from the creation of the cosmos to the end of the Heroic Age—plus an

illustrated mythological dictionary listing every significant character, place, event, and object. Whether exploring the world that gave rise to ancient mythology or researching a specific piece of the whole, the handbook is the best introduction available to the extraordinary cast of these tales (gods, nymphs, satyrs, monsters, heroes) and the natural and supernatural stages upon which their fates are played out.

**Tales of Epic Ancestry** Stephanie L. Larson 2007 This book explores late-sixth and early fifth-century Boiotia as a case study in the construction and articulation of collective identity in archaic and early classical Greece. By juxtaposing a variety of sources - historiography, numismatics, iconography, epigraphy - the author discusses traditions of Boiotian descent and territory as well as Boiotian use of a common symbol, promotion of shared dialect, and use of a common name. These sources suggest that by the late sixth century the Boiotians actively promoted collective links to Athena and Thessaly as well as to epic tradition and specific epic heroes. They did not begin using their collective name in a strictly political or military sense until the middle of the fifth century BC. With this ethnic portrait, the author offers an alternate explanation to the opinio communis that attributes late sixth-century Boiotian solidarity to an early political and military federation of poleis. The author rather argues that the Boiotians adopted a permanent federal system only in the mid-fifth century.

The Trojan War in Ancient Art Susan Woodford 1993 The legendary characters of the Trojan War captured the imaginations not only of Greek and Roman writers, but of countless visual artists as well. A vibrant retelling of the Trojan myths, this handsomely illustrated book brings to life for today's readers both visual and literary traditions.

**Herakles and Hercules** Louis Rawlings 2005 "This collection had its origins in a conference on Herakles-Hercules in the Ancient World, held at the University of Cardiff in September 1998."--P. vii.

Athenian Potters and Painters John Howard Oakley 1997 A mass of new material on Greek vases is included in this huge volume of proceedings from an international conference held at the American School of Classical Studies at Athens in December 1994. The forty three papers include: New light on the earliest Attic black-figure drinking cups (Herman A G Brijder); 'Attic vases, Etruscan stories' - Les échanges et les hommes (N Malagradis)l Eleusis in Athenian vase-painting (E Simon); Le peintre des demi-palmetts (F Lissarrague); Der Augen-Sirenen-Maler (J Burrow); The Bosanquet painter (J Oakley); Boy meets girl: An iconographic encounter (J Boardman); Aspects of nuptial and genre imagery in fifth-century Athens (V Sabetai); The Pisticci painter (M Denoyelle); Athenian black-figure (A Lemos); Ceramica attica a fondo bianco da Pupulonia and more...
