Cross-Cultural Challenges of Managing

'One Belt One Road' Projects Arshia Mukhtar

2022-04-06 The China Pakistan Economic Corridor (CPEC) is a flagship program of China's 'One Belt One Road' initiative, created to boost economic cooperation between China and Pakistan with significant political and economic implications in the region. This book looks at critical issues when developing capabilities of cross-cultural management, adaptation and adjustment through cross-cultural understanding and network building from the CPEC case study. The book highlights the importance of acculturation experience, cross-cultural networking, networking behaviour (guanxi vs. hawala), and factors influencing

cross-cultural adjustment, which would enhance the overall performance of 'One Belt One Road' projects in general. It looks at how the Chinese and Pakistani employees' national cultures affect their behaviour while working on the CPEC projects. The book offers insights into what cross-cultural adjustments are effective in creating improved individual and organizational performance. In an increasingly globalized world in which the practice of working with people from multiple cultural background is more of a norm, this book will be a useful reference for those who are interested to achieve success in multi-cultural settings.

Becoming a Behavioral Science Researcher Rex

B. Kline 2009 Students and beginning researchers often discover that their introductory statistics and methods courses have not fully equipped them to plan and execute their own behavioral research studies. This indispensable book bridges the gap between coursework and conducting independent research. With clarity and wit, the author helps the reader build needed skills to formulate a precise, meaningful research question;

understand the pros and cons of widely used research designs and analysis options; correctly interpret the outcomes of statistical tests; make informed measurement choices for a particular study; manage the practical aspects of data screening and preparation; and craft effective journal articles, oral presentations, and posters. Including annotated examples and recommended readings, most chapters feature theoretical and computer-based exercises; an answer appendix at the back of the book allows readers to check their work.
