AJS and Matchless Post-War Singles and Twins Matthew Vale

2016-08-31 Associated Motor Cycles (AMC) produced some of the most iconic British bikes of the 1940s and 1950s. Badged as either AJS or Matchless, the range covered everything from plodding ride-to-work four-stroke singles, weekend racers, two-stroke motocrossers and full-blown Grand Prix contenders. Illustrated with over 200 photographs, this comprehensive new history looks at the history and development of the single and twin-cylinder ranges; the racing bikes; technical details of all major models, and owning and riding AJS and Matchless bikes today.

A Study of Dragons, East and West Qiguang Zhao 1992 Few symbols saturate human civilization so broadly and thoroughly as those of the ubiquitous and enigmatic dragon. This compelling book examines, compares, and analyzes the appearance and symbolization of the Eastern and Western dragons and treats them as the crystallization of human cultures. It shows that Chinese dragons resemble one another but suggest different ideas in different contexts, while Western dragons have different appearances but often denote a single concept. As one of the most notable achievements of dragonology, this book offers astonishing new insights into dragons as zoological «fact», psychological archetypes, and ideological symbols.
