Digital Security Field Manual Christopher Quinn 2025-07-02 'A future in which technological advances could be turned around on the American people and used to facilitate a system of government surveillance.' That's not Orwell. It's Senator Frank Church, warning us, in the 1970s. They want your data. This is how you keep it. Look around. Every device you own is a sensor. Every click, swipe, and search, recorded, analyzed, sold. Your life? Monetized. Your privacy? A memory, if you let it be. Welcome to the surveillance age.
