Before the current Copyright Act became effective in 1978, publication of a work in the United States with a proper

copyright notice conferred statutory copyright and started the copyright term. The U.S. Constitution empowers Congress to create a copyright system to promote the progress of science and learning. The main goal of copyright law is to spur the growth and spread of knowledge ... A copyright is a form of protection provided by U.S. law to the authors of “original works of authorship” fixed in any tangible medium of expression. Learn more about the basics of copyrights. The Copyright Office administers the national copyright system and provides advice on copyright law to congress, federal agencies, the courts and the public. What is Copyright?
