Wanda Miller 1997-03-15 Allow students to step back in time to experience the thoughts, feelings, dilemmas, and actions of people from history. For each history topic, Miller suggests two titles-one for use with the entire class and one for use with small reading groups.

Summaries of the books, author information, activities, and topics for discussion are

supplemented with vocabulary lists and ideas for research topics and further reading. This integrated approach makes history meaningful to students and helps them retain historical details and facts.

**An Educator's Guide to the Perspectives on History Series** JoAnne Weisman Deitch 1997  
Based on the idea that the study of history should include the perspectives of all the people who lived during a certain time period, this unit offers as many different points of view as possible. Students are introduced to primary source materials and exposed to literature

(especially historical fiction), poetry, and drama that reflects the period being studied. The guide is divided into the following sections: (1) "Integrating History and Literature"; (2) "History's Habits of the Mind"; (3) "Memory Power"; (4) "Questioning Techniques"; (5) "Finding Primary Sources"; (6) "Incorporating Primary Sources"; (7) "Written Documents"; (8) "Photos and Graphic Documents"; (9) "Song/Poem Document"; (10) "Cartoon Documents"; (11) "Artifact Documents"; (12) "Map Reading"; (13) "Charts and Graphs"; and (14) "Teaching Notes for the 'Perspectives on History Series.'" This last section contains historical materials on the following topics: Colonial History; Western Themes; Relocation and Immigration; Women's History; The Black Experience; Justice and the Law; 19th Century Industrialization and Labor History; 20th Century; and War and Conflict. **Getting the Most from Literature Groups**

Penny Strube 1996 Penny Sturbe believes in the power of literature to teach reading, like so many other teachers today. And as she recounts in this practical, lively book, literature opened a whole new world of teaching and learning for her as well as for her students. As she says, she can't imagine ever having taught in any other way.

*Social Studies for Secondary Schools* Alan J. Singer 2003-04-02 *Social Studies for Secondary Schools: Teaching to Learn, Learning to Teach, Second Edition* integrates discussions of educational goals and the nature of history and social studies with practical ideas for organizing social studies curricula, units, lessons, projects, and activities. A major theme woven throughout the text is that what we choose to teach and the way we teach reflect our broader understanding of society, history, and the purposes of social

studies education. Each chapter opens with a broad question about social studies education; provides many examples of lessons, including lesson ideas developed by new and experienced middle school and high school social studies teachers; features a rich variety of teaching, learning, and classroom activities designed to provoke discussion and illustrate different approaches to teaching social studies; and concludes with essays about related social studies topics. Part I focuses on philosophical issues, social studies goals and standards, and the design of social studies curricula. Part II examines and offers examples of strategies for planning units and lessons. Part III explores topics, such as thematic and interdisciplinary teaching, a project approach to social studies, as well as assesses student learning and one's own performance as a teacher, and provides a guide to social studies resource materials and organizations. New in the Second Edition:

\*Every chapter has been updated and includes a

number of new lesson ideas. \*The lesson ideas are designed especially to help beginning teachers address learning standards; work in inclusive settings; and promote literacy and the use of technology in social studies classrooms. \*Sample activities developed with members of the Hofstra New Teachers Network reflect the current focus on document-based instruction and assessment, and can serve as tools for assessing student learning. \*Increased attention is given to project-based social studies instruction and to multicultural education. Intended as a text for undergraduate and graduate preservice social studies methods courses, this text is also useful for in-service training programs, as a reference for new social studies teachers, and as a resource for experienced social studies educators who are engaged in rethinking their teaching practice. *A Field Guide to the Classroom Library* Lucy Calkins 2002 Provides comprehensive and accessible leveled lists and guides for 1,200

children's trade books for kindergarten through 6th grade to help teachers build classroom libraries.
