Early Modern Maternities in the Iberian Atlantic

Emily Colbert Cairns 2025-10-01 Early Modern Maternities in the Iberian Atlantic is the first volume to emphasize women's personal experiences and their life trajectories as mothers within the Peninsula and across the Atlantic. Although an official discourse that defined the conditions of motherhood emerged in the eighteenth century, before this period there were many different articulations of motherhood through which women negotiated hierarchical relationships, power struggles and alliances. While the individual experiences were unique and depended upon the positionality of race and class, the complexities of being a mother were universal. The wide variety of written and visual documents included in this volume highlight

women's voices in the first person along with more subtle references to motherhood as well as silences. This collection broadens our understanding of the complexities of motherhood, addressing the pressures of becoming a mother, miscarriage, the acts of giving birth and lactation and the ordeals of raising children.

Blitzstein 2014-07-24 Developed from celebrated Harvard statistics lectures, Introduction to Probability provides essential language and tools for understanding statistics, randomness, and uncertainty. The book explores a wide variety of applications and examples, ranging from coincidences and paradoxes to Google PageRank and Markov chain Monte Carlo (MCMC). Additional application areas explored include genetics, medicine, computer science, and information theory. The print book version includes a code that provides free access to an eBook version.
