

Alter Ego A1

A Guide to Student-centred Learning Donna Brandes 1996 Offering the possibility of a new relationship between teachers and learners, this book describes an approach to teaching styles and student progress, whereby the emphasis is on activity-based learning, rather than on teaching, and on teacher-student collaboration, rather than instruction. The book aims to show how students of any age and ability can take responsibility for their own learning in an environment of positive regard, as teachers become facilitators rather than instructors.

Neighbor Networks Ronald S. Burt 2010-01-14 In this book Burt examines the cases of analysts, bankers, and managers, and find that rewards, in fact, do go to people with well-connected colleagues. It shows how individuals make use of their social networks to further their careers.

Advances in Experimental Markets Timothy N. Cason 2001 Experimental methods are now a mainstream empirical methodology in economics. The papers in this volume represent some recent developments in research on experimental markets. The articles span a variety of topics related to experimental markets, including auctions, taxation, institutional differences, coordination in markets, and learning. Contributors to the volume include many of the most distinguished researchers in the area.

Handbook of Social Network Analysis and Education Nina Kolleck 2025-07-15 This prescient Handbook analyzes how Social Network Analysis (SNA) is revolutionizing educational research by transforming how we interpret the complex web of interactions between students, teachers, parents, and education systems.

D. H. Lawrence: Late Essays and Articles D. H. Lawrence 2004-04 In his last years D. H. Lawrence often wrote for newspapers; he needed the money, and clearly enjoyed the work. He also wrote several substantial essays during

the same period. This meticulously-edited collection brings together major essays such as *Pornography and Obscenity* and Lawrence's spirited Introduction to the volume of his *Paintings*; a group of autobiographical pieces, two of which are published here for the first time; and the articles Lawrence wrote at the invitation of newspaper and magazine editors. There are thirty-nine items in total, thirty-five of them deriving from original manuscripts; all were written between 1926 and Lawrence's death in March 1930. They are ordered chronologically according to the date of composition; each is preceded by an account of the circumstances in which it came to be published. The volume is introduced by a substantial survey of Lawrence's career as a writer responding directly to public interests and concerns.

Jess Jackson K. Putnam 2005-02-21 Jesse Marvin Unruh acquired a national political reputation despite the fact that he never gained office above the California governmental level. He spent sixteen years (1955-1970) in the state legislature, seven of them as assembly speaker. While there he secured passage of moderate-liberal legislation and upgraded the quality of the state legislature to the number one position in the nation. Unruh curbed the power of special interest lobbies and induced them to support his legislative program. He also kept the state

Democratic Party in a moderate political position as the Republicans moved ever further to the right. Although Governors Pat Brown and Ronald Reagan frustrated his desire to attain the Governorship, Unruh was elected State Treasurer in 1974. He transformed the office into one of great power to such an extent that by the time of his death in 1987 he was being referred to as 'the best governor California never had.' In the meantime, his close connections with the Kennedy family, especially John and Robert, his reputation as a political pundit, and his powerful influence on Wall Street, earned Unruh great respect far beyond his California base.
