The Compact Bedford Introduction to Literature
Michael Meyer 2019-11-04 The Compact Bedford Introduction to Literature is a bestseller for a reason: It brings literature to life for students, helping to make them lifelong readers, better writers, and more critical thinkers in any path they choose. Classic works drawn from many periods and cultures appear alongside a strong showing from today's authors. There is

plenty of support for students, with critical reading and writing support, helpful sample close readings, writing assignments, and student papers in up-to-date MLA style. And, because everyone teaches and learns differently, there are many options for working with the literature, including case studies on individual works and themes that everyone can relate to. In-depth chapters on major authors including Flannery O'Connor and Nathaniel Hawthorne take students deeper into their work, and three chapters on the fiction of Dagoberto Gilb and the poetry of Billy Collins and Julia Alvarez—created in collaboration with the authors themselves—are one more way that the anthology showcases literature as a living, changing art form.

Concerning Evil 2019-01-04 This volume was first published by Inter-Disciplinary Press in 2013. The chapters within this volume expose a need to discuss and challenge both the practise of evil and the judgement of acts and persons as being 'evil.' The reader will find a diverse and intriguing selection of representative texts and themes, including: discussions of the monstrous, the consideration of evil objects, a reading of the wicked language of lying and 'bullshitting', and investigations of madness. A range of literature from medieval to contemporary texts, including poetry, novels, television and cinema, are considered and analysed through cultural and historical contexts in the hopes to extend the discussion that intrigues many of us: what is evil?

Experiencing Epiphanies in Literature and Cinema Bradley Lewis 2024-07-09 *Experiencing Epiphanies in Literature and Cinema* uses health humanities and psychological humanities to explore literary and cinematic epiphanies. James Joyce first adopted the term "epiphany" from its religious use to articulate moments of luminous intensity or "sudden spiritual manifestation." This study develops and extends Joyce's use of epiphany through a range of literary and cinematic examples, from William Shakespeare to Ruth Ozeki and from Yasujirō Ozu to Jim

Jarmusch. This wealth of epiphanies in the arts is important from a health humanities perspective in that they provide access to aesthetic and sustainable experiences of well-being, joy, and human flowering. They also provide antidotes to aesthetics of anti-epiphany—a showing forth of terror, horror, and panic. *Experiencing Epiphanies* is accordingly both critical and affirmative, diagnostic and therapeutic. It uses critique to understand the increasing need for well-being in contemporary times, and it uses affirmation to develop underutilized resources in the arts for transforming, configuring, and refiguring our everyday lives.
