**Success in Academic Surgery: Health Services Research** Justin B. Dimick 2014-07-10  
Surgical education is a rapidly expanding area of surgical research and career interest, and as the Association for Academic Surgery (AAS) Fall Courses ([www.aasurg.org](http://www.aasurg.org)) and International courses offer more and more specialty tracking there is a greater need for an accompanying textbook to supplement the material presented in the courses. **Success in Academic Surgery: Health Services Research** is a unique and portable handbook that focuses on clinical trials. It includes new educational materials which are

necessary to address: (1) the rapid evolution and rise of novel research methodologies in basic science and clinical/educational research and (2) the changing environment for academic surgeons. *Success in Academic Surgery: Health Services Research* is a valuable text for medical students, surgical residents and others considering a career within surgery.
