Jazz Eddie S. Meadows 2013-10-23 Jazz: Research and Pedagogy is the third edition of an annotated bibliography to books, recordings, videos, and websites in the field of jazz. Since the publication of the 2nd edition in 1995, the quantity and quality of books on jazz research, performance, and teaching materials have increased. Although the 1995 book was the most comprehensive annotated jazz bibliography published to that date, several books on research, performance, and teaching materials were omitted. In addition, given the proliferation of new books in all jazz areas since 1995, the need for a new, comprehensive, and annotated reference book on jazz is apparent. Multiply indexed, this book will serve as an excellent tool for librarians, researchers, and scholars in sorting through the massive amount of new material that has appeared in the field over the last decade.

The Songs of John Lennon John Lennon 2002 (Berklee Press). An essential guide for all songwriters and Beatles fans, this book explores John Lennon's songwriting genius with a guided tour through 25 of his Beatles-era hits. Author John Stevens explains Lennon's intuitive talent from a technical point of view, through the lens of songwriting's three basic elements: melody, harmony and lyric. He shows how Lennon fashioned songs that were at once politically and socially relevant during the '60s, yet remain ageless and timeless today. Features in-depth musical analysis of: A Hard Day's Night * Ticket to Ride * Norwegian Wood * Strawberry Fields Forever * Come Together * and more. John Stevens is a songwriting professor at Berklee College of Music. For more than 20 years, he has taught "The Music of John Lennon," one of the most popular courses in the Berklee curriculum. "You've got the Beatles' records and the John Lennon records; now with this book, you can have the Owner's Manual. This will tell you how the songs are built and how they work. Good stuff." Marshall Crenshaw, Singer/Songwriter

The Ultimate Blues Workout for All

Instruments, by Rich Willey Rich Willey 2008-01-01 A thorough workout in the incredibly versatile 12-bar form known as "the blues." Three kinds of blues in twelve keys plus eight additional blues thrown in just for fun. This volume is designed "for grown-ups" and makes the Aebersold blues volumes look like kindergarten stuff. Guaranteed to challenge and educate while providing the opportunity to have a great time playin' the blues. Beautifully printed on high-quality paper and GBC comb-bound with protective mylar outer covers. Here is the breakdown of the 44 different (some are way different) original bebop/jazz blues: * Major Blues in all 12 keys * Minor Blues in all 12 keys * Triple Meter Blues in all 12 keys * Eight "Extra" Blues This book will give you a workout unlike any you've ever seen! Each two-page spread contains one blues in four transpositions: C treble, C bass, B-flat and E-flat. There are also chordal and melodic points of interest throughout. Your book comes with a page containing a link for you to easily download all the play-along files, enough so you can make 8 play-along CDs (two tempos per blues, choice of melody present or no melody present--over 91/2

hours of play-along tracks) plus a complete set of MIDI files to use with Band-In-A-Box or other sequencing programs (for instance, some versions of Windows Media Player allow you to do these at any tempo and Band-In-A-Box lets you do them at any tempo and in any key). This workout is guaranteed to keep you learning and improving for a long, long time! And, this is probably the biggest complete combo book you can find anywhere for this small of a price.
