Exploring Physical Anthropology: Lab Manual and Workbook, 4e Suzanne E Walker Pacheco 2022-01-14 Exploring Physical Anthropology is a comprehensive, full-color lab manual intended for an introductory laboratory course in physical anthropology. It can also serve as a supplementary workbook for a lecture class, particularly in the absence of a laboratory offering. This laboratory manual enables a hands-on approach to learning about the evolutionary processes that resulted in humans through the use of numerous examples and exercises. It offers a solid grounding in the main areas of an introductory physical anthropology lab course: genetics, evolutionary forces, human osteology, forensic anthropology, comparative/functional skeletal anatomy, primate behavior, paleoanthropology, and modern human biological variation.
