Arts of Ancient Viet Nam Nancy Tingley 2009 "Explores Viet Nam's rich heritage, from the Sa Huynh culture (1st millennium B.C.) to art from Hoi An. The authors discuss links between Viet Nam and Indonesia, reflected in the Hindu and Buddhist temples and stone sculptures, and investigate trade in gold and Chinese ceramics with Butuan"--Provided by publisher.

Ancient Southeast Asia John Norman Miksic 2016-10-14 Ancient Southeast Asia provides readers with a much needed synthesis of the latest discoveries and research in the archaeology of the region, presenting the evolution of complex societies in Southeast Asia from the protohistoric period, beginning around 500BC, to the arrival of British and Dutch colonists in 1600. Well-illustrated throughout, this comprehensive account explores the factors which established Southeast Asia as an area of unique cultural fusion. Miksic and Goh explore how the local population exploited the abundant resources available, developing maritime transport routes which resulted in economic and cultural wealth, including some of the most elaborate art styles and monumental complexes ever constructed. The book's broad geographical and temporal coverage, including a chapter on the natural environment, provides readers with the context needed to understand this staggeringly diverse region. It utilizes French, Dutch, Chinese, Malay-Indonesian and Burmese sources and synthesizes interdisciplinary theoretical perspectives and data from archaeology, history and art history. Offering key opportunities for comparative research with other centres of early socio-economic complexity, Ancient Southeast Asia establishes the area's importance in world history.

The Archaeology of Mainland Southeast Asia Charles Higham 1989-05-11 Southeast Asia was the scene of one of the world's major civilisations, that of Angkor, until it was sacked in the early fifteenth century. The origins of Angkor were barely known until recent archaeological excavation and field research began to reveal the region's dynamic development and to raise new questions to serve in its understanding. This important new synthesis focuses on the social world of early mainland Southeast Asia: Thailand, Vietnam, Kampuchea, Laos and adjacent areas. The book begins when the area was occupied 12,000 years ago by hunters and gatherers. The author stresses the importance of sedentism and domestication. These encouraged the spread of coastal communities into the interior valleys. Particular relevance is seen in the exchange of valuables, including bronze, as symbols of status. The origins of civilisation, for long assumed to result from Indian expansion in the region, are seen as rooted in local changes, along with the selective adoption of Indian religious and political ideas within coastal chiefdoms. In bridging the gap between prehistory and history, this book will appeal not only to archaeologists but to those interested in the general history, culture and arts of Asia.

Early Civilizations of Southeast Asia Dougald J.W. O'Reilly 2007 Early Civilizations of Southeast Asia presents a fascinating synthesis of research on the prehistoric societies of mainland Southeast Asia. Drawing on archaeological and historical research, both old and new, Dougald O'Reilly provides a general picture of the events that shaped the region in ancient times, covering the rise of the Pyu civilization in Myanmar, the Mon and Dvaravati kingdoms of Thailand, the early polities of peninsular Malaysia, the Khmer kingdoms of Cambodia, and the rise of Champa in Vietnam. This is a book that will interest both scholars and students of archaeology, anthropology, history, and Asian studies.

Ban Chiang, Northeast Thailand, Volume 2A Joyce C. White 2018-11-09 The emergence and adoption of metallurgy is one of the seminal topics of investigation in the history of archaeology, particularly in the history of archaeological research in Southeast Asia. The site of Ban Chiang, Thailand, is a central site in debates surrounding the chronology and significance of early metallurgy in the region. This book

is the first in a series of four volumes that review the contributions of Ban Chiang and three related sites in northeast Thailand excavated by the Penn Museum to an understanding early metallurgy in Thailand. As the study of archaeometallurgy is a complex topic that draws on numerous technical and social science disciplines, this introductory volume presents in several chapters the background needed to assess the metal and related evidence presented in the subsequent volumes in this series. A history of perspectives on the role of metals in ancient societies generally and Southeast Asia, specifically, is provided. Other chapters debunk the conventional paradigm for understanding metals and society and provide current theoretical perspectives and new paradigms for the study of ancient metals. The geological basis for the presence and location of metal ore resources in the region is reviewed. The final chapter presents a technical overview of ways material properties of ancient metals may be studied. While providing a background to the study of metals at Ban Chiang, the volume also reviews, synthesizes, and repositions the method and theory for the study of archaeometallurgy generally. Southeast Asia in the Fifteenth Century Geoff Wade 2010 The argument rests on developments such as the introduction of firearms, more intensive rice agriculture, Thai and Viet ceramic exports, Korean and Ryukyu contacts with Southeast Asia, the demise of Champa, the climax of Viet and northern Tai statecraft, the birth of Melayu-Muslim kingship in Melaka and the creation of a new Muslim Javanese civilisation on Java's north coast. Coincident with these changes, Ming China's engagement with Southeast Asia grew as a result of overland expansion into the Tai and Viet polities, state-sponsored maritime voyages, and private Chinese trade and migration to the region. -- Pacific Affairs 1967 Includes book reviews and bibliographies.

A New History of Southeast Asia M.C. Ricklefs 2010-11-19 A new, comprehensive, one volume history of Southeast Asia that spans prehistory to the present. Ricklefs brings together colleagues at the National University of Singapore whose expertise covers the entire region, encompassing political, social, economic, religious and cultural history. Opening with an account of the ethnic groups and initial cultural and social structures of Southeast Asia, the book moves through the early 'classical' states, the arrival of new global religions and the impact of non-indigenous actors. The history of early modern states and their colonial successors is followed by analysis of World War II across the region, Offering a definitive account of decolonisation and early post-colonial nation-building, the text then transports us to modern-day Southeast Asia, exploring its place in a world recovering from the financial crisis. The distinguished author team provide an authoritative and accessible narrative, drawing upon the latest research and offering detailed guidance on further reading. A landmark contribution to the field, this is an essential text for scholars, students and anyone interested in Southeast Asia.

Early Maritime Cultures in East Africa and the Western Indian Ocean Akshay Sarathi 2018-11-30 This volume represents a multi-disciplinary effort to examine East Africa and the Western Indian Ocean. Multiple lines of evidence drawn from linguistics, archaeology, history, art history, and ethnography come together in novel ways to highlight different aspects of the region's past and offer innovative avenues for future research.

Uncovering Southeast Asia's Past European Association of Southeast Asian Archaeologists. International Conference 2006 The 36 chapters in this collection have been selected to give an overview of recent research into prehistoric and early historic archaeology in Southeast Asia. In the first chapter Her Royal Highness Princess Maha Chakri Sirindhorn of Thailand comments on the significance of the inscriptions from the important Khmer temple, Prasat Phnom Rung in northeastern Thailand. Following this, Professor Charles Higham gives an original and insightful survey of the prehistoric threads linking south China and the countries of modern Southeast Asia.

Early Mainland Southeast Asia Charles Higham 2014 For the first time, the complete cultural history of mainland Southeast Asia is covered in one volume.
