2024-11-22 The Government of

Sierra Leone (GoSL) has

launched a new Medium-Term

National Development Plan

(MTNDP). Unlike the previous

plans that were implemented

for five years, the new plan will

be executed for a period of

seven years spanning

2024-2030, in order to be fully

aligned with the remaining

period of implementation of the

United Nations 2030 Agenda

for Sustainable Development,

summarised in the 17

Sustainable Development Goals

(SDGs). The current plan is

highly strategic and prioritised,

drawing from crucial lessons learned in the implementation

of the previous plan, the

MTNDP 2019-2023. The new

plan is focused on the

Government's Big Five Game

Changers that constitute the

country's overarching agenda

for 2030 and give strategic

direction to the plan.

Administration for

Development in Nigeria Paul D.

Collins This classic text,

originally published in 1948, is

a study of the public

administration movement from

the viewpoint of political

theory and the history of ideas.

It seeks to review and analyze the theoretical element in administrative writings and to present the development of the public administration movement as a chapter in the history of American political thought. The objectives of *The Administrative State* are to assist students of administration to view their subject in historical perspective and to appraise the theoretical content of their literature. It is also hoped that this book may assist students of American culture by illuminating an important development of the first half of the twentieth century. It thus should serve political scientists whose interests lie in the field of public administration or in the study of bureaucracy as a political issue; the public administrator interested in the philosophic background of his service; and the historian who seeks an understanding of major governmental developments. This study, now with a new introduction by public policy and administration scholar Hugh

Miller, is based upon the various books, articles, pamphlets, reports, and records that make up the literature of public administration, and documents the political response to the modern world that Graham Wallas named the Great Society. It will be of lasting interest to students of political science, government, and American history.

FINANCE AND CONTINENTAL DEVELOPMENT PLAN

MARCO KAMANGO

2020-07-16 Public domestic resources remain a major instrument of development plan via the financial part as they are the largest numerically with a total external financial flows into Africa amounted to \$200 billion and domestic taxes \$530 billion

(OECD, AFDB,2014). In this book, the international economist and transcontinental expert Marco Kamango Wembulua Albertovich proposes as the direct key to financial sustainability and African self-sufficiency, domestic resources in association with proactive leadership and continental commitment at both the political and institutional levels for achieving a successful national then continental development.

issues, this comprehensive compendium traverses a spectrum of subjects that the audience ought to be well acquainted with. The Editors provide instructive findings regarding national development, economic growth and their determinants, but they also offer historical perspectives on the subject and the implications for developing countries. The book addresses a suite of critical themes regarded by development experts to be germane in considering the pertinence of policies and their effective execution. These seven general thematic areas are explored: Leadership, governance, policy and strategy Public sector and public financial management Culture, institutions and people Natural resources Science, technology and infrastructure Private sector and financial markets Marketing, branding and service delivery This thematic approach enables the contributors to explore the impact of the constituents of each subject area on national

development, within the context of a developing economy. The significance of the findings for the relevant stakeholders is consequently reviewed. The combination of theory and practice makes the book and its contents unique.

This Medium-Term National Development Policy Framework (MTNDPF) 2022-2025 seeks to operationalize Article 36, Clause 1 of Ghana's 1992 constitution, which enjoins Government to ensure that the national economy is managed efficiently to maximize the welfare of the citizenry. It was prepared with broad-based stakeholder participation including the use of cross-sectoral planning groups (CSPGs) as enjoined by article 15 of the National

Development Planning Commission Act, 1994 (Act 479). Public consultations were also undertaken across the country, including engagement with parliament and the presidency. It was finally approved by the Commission following approval from the presidency and presented to Parliament.
