Hypertextbook is a reaction to three big problems with textbooks: lack of writer's voice, layouts that reduce readability, and outdated economics. Contemporary research in physics can be broadly divided into nuclear and particle physics; condensed matter physics; atomic, molecular, and optical physics; astrophysics; and applied physics. Physics is a natural science that involves

the study of matter and its motion through space and time, along with related concepts such as energy and force. More broadly, it is the study of nature in an ... Physics is concerned with describing the interactions of energy, matter, space, and time, and it is especially interested in what fundamental mechanisms underlie every phenomenon. Physics the study of matter, motion, energy, and force.
