*A Classical Chinese Reader*

Donald B. Wagner 2016-03-16

Designed as an advanced/intermediate level textbook for students, this book will meet the needs of those making the transition between 'textbook texts' to 'real texts'. Dr Wagner's many years' experience of teaching classical Chinese are brought to bear on one of the most difficult aspects of learning the language - making the progression from introductory textbooks on classical Chinese, which do not present serious philological problems, to real historical texts, in which such problems abound. The text used is the biography of Huo Guang in the Han Shu together with the commentaries compiled by Yan Shigu.

**Interculturality in Learning Mandarin Chinese in British Universities**

Tinghe Jin  
2020-11-29 As China and Chinese language learning moves centre stage economically and politically, questions of interculturality assume even greater significance. In this book interculturality draws attention to the processes involved in people engaging and exchanging with each other across languages, nationalities and ethnicities. The study, which adopts an ecological perspective, critically examines a range of issues and uses a variety of sources to conduct a multifaceted investigation. Data gathered from interviews with students of Mandarin sit alongside a critical discussion of a wide range of sources. Interculturality in Learning Mandarin Chinese in British Universities will be of interest to students and academics studying and researching Chinese language education, and academics working in the fields of language and

intercultural communication, intercultural education and language education in general.

New Practical Chinese Reader 4, Textbook (2. Edition)

Liú Xún 2012 Since the publication of New Practical Chinese Reader in 2002, it has been well-received by teachers and learners. For users' convenience, in this new edition we have revised those points we found improper. In contrast to its first edition, the notes of the texts are designed next to each text to facilitate

students. We have not revised the framework, especially the texts and the main language points of the textbook. Users can visit [www.blcup.com](http://www.blcup.com) or [resources.blcup.com](http://resources.blcup.com) to download the traditional Chinese version of the texts for free. All the reading materials and illustrations in the workbook are updated. This is Textbook 4 of New Practical Chinese Reader (2nd Edition). The 12 lessons in it center around a few international students, telling interesting stories about their life and friendship in China and introducing some real-life conventions concerning Chinese expression and comprehension. An MP3 disk goes with the book, including the recording of texts, new words, key sentences and conversation practices in it. *Teaching and Learning Chinese as a Foreign Language* Janet Zhiqun Xing 2006-01-01 This book provides a research-based account of how to teach and learn Chinese as a foreign language. In addition to the discussion of relevant

second/foreign language research, this volume gives detailed information on ways to develop a pedagogical model that is uniquely suited to teaching Chinese in five key areas: pronunciation (tones and pinyin), characters and words, sentences (when and why different sentence structures are used), discourse and pragmatic competence (coherence and genre), and cultural competence. Specially written for Chinese language teachers, student teachers and applied linguists, this is the first book written in English that systematically addresses all major aspects involved in teaching and learning Chinese as a foreign language. This book covers all the fundamental grammar elements in Chinese, explains their functions in discourse and communication, and explores different strategies for teaching and engaging students in learning the language.
