*Esparragos para dos leones* Alfredo Iriarte 2023-03-01 Uno de los grandes hitos de la literatura satírica en Colombia: una novela atrevida, ingeniosa y sumamente divertida, en la que Alfredo Iriarte critica sin tapujos a la aristocracia propia de las sociedades latinoamericanas "En esta fábula novelada de Iriarte estamos instalados, desde la primera página, en una deliciosa parodia burlesca de los ridículos pergaminos de abolengo de que se han preciado (si se puede más que en la misma península) los descendientes de españoles trasplantados a las Indias, siempre temerosos de no ser considerados, al ser habitantes del nuevo

mundo, como personas de suficiente alcurnia y categoría. "La forma en que esta irónica y delirante trama se construye es heredera de Valle-Inclán, y sobre todode sus novelas esperpénticas. Los personajes, las situaciones, las escenas, mediante procedimientos de exageración y de reducción al absurdo, tienen una deuda innegable con ciertos textos del autor español que deforman y ridiculizan la realidad hasta niveles grotescos. El deleite no viene del realismo mimético ni de la precisa reconstrucción histórica, sino de la deformación extrema, mucho más concentrada en humor negro y en lo irónico que en lo verosímil". Del prólogo de Héctor Abad Faciolince La crítica ha dicho... "Sobre mi escritorio reposan libros como el de Carlos Sanclemente sobre historias peregrinas [...], y, para coronar, la novela de

Alfredo Iriarte Espárragos para dosleones".  
Alfonso López Michelsen, El Tiempo, 1999 "Es un libro iconoclasta y un tris -o bastante-blasfemo. Un libro delicioso". D'Artagnan, El Tiempo "Espárragos para dos leones es una obra excepcional y ejemplar, porque constituye un homenaje a la palabra como reino hermoso y apasionante que es, y confirma aquello de que el lenguaje es un drama, y las palabras son los actores. En este caso con un gran director llamado Alfredo Iriarte". Bernardo Ramírez, Consigna

**El oficio de investigador** Diego Antonio Pineda  
Rivera 2012-10-09 En este libro el autor busca

examinar cómo se construye el oficio de investigador a partir de un personaje de ficción, Sherlock Holmes, que bien puede ser considerado como uno de los más interesantes modelos de investigación de todos los tiempos. A partir de él es posible examinar algunos de los principales problemas conceptuales y metodológicos que están a la base de todo proceso investigativo, los cuales, además, pueden ser igualmente relevantes en muy diversos campos. Más que “enseñar a investigar” -esto es algo que sólo se aprende en la práctica misma y en la medida en que profundizamos en nuestras disciplinas específicas-, la lectura de los relatos sobre Sherlock Holmes genera en el lector atento una reflexión en torno al sentido, el proceso, los métodos, las estrategias, entre otro. de la investigación científica. A partir de él se podremos realizar, entonces, un examen del oficio de investigador, podremos ver cómo se hace ciencia y, a la vez, podremos suscitar una reflexión sobre cómo nosotros mismos

podríamos hacerla. La utilización de un modelo literario como éste tiene una serie de ventajas. Además de que los relatos sherlockianos son de muy agradable lectura, se propicia a través de ellos una introducción narrativa a los problemas claves de la investigación, que podríamos y deberíamos confrontar con visiones alternativas de lo que constituye una lógica de la investigación científica. Los relatos policíacos de Sir Arthur Conan Doyle constituyen una literatura de un elevado nivel de reflexión teórica, dado que Sherlock Holmes es un personaje que, a la vez que construye un oficio propio, el de investigador, va reflexionando continuamente sobre dicho oficio y sobre la práctica investigativa en general; sobre todo, hay una poderosa "lógica de la investigación científica" implícita, y muchas veces explícita, en estos textos.
