DISASTER RISK AND IMPACT MANAGEMENT ANIL K. GUPTA.

Management of Natural Disasters at the National Level Satyendra P. Gupta 1996

Integrating Disaster Science and Management Pijush Samui 2018-05-09 Integrated Disaster Science and Management: Global Case Studies in Mitigation and Recovery bridges the gap between scientific research on natural disasters and the practice of disaster management. It examines natural hazards, including earthquakes, landslides and tsunamis, and uses integrated disaster management techniques, quantitative methods and big data analytics to create early warning models to mitigate impacts of these hazards and reduce the risk of disaster. It also looks at mitigation as part of the recovery process after a disaster, as in the case of the Nepal earthquake. Edited by global experts in disaster management and engineering, the book offers case studies that focus on the critical phases of disaster management.

Marine and Coastal Resources of India Srikumar Chattopadhyay 2025-07-30 This edited volume covers a wide variety of topics related to the geomorphology of India's coasts, India's coastal resources, and the human and physical sciences surrounding both. The contents of this book consist of thirty three scholarly articles including introduction and conclusion contributed by academics and professionals, mostly from India. The work presented here is multidisciplinary, with contributors coming from geography, geology, marine geology, oceanography, fishery, agriculture, engineering, management, forestry and other allied disciplines. The papers contributed by experts from the respective fields discuss a wide range of subject matters dealing with some of the crucial aspects of marine and coastal resources, including importance of the Indian Ocean and blue economy in Indian's future development. This book will be useful for academics, professionals, researchers and students interested in marine and coastal resource management.

Disaster management - A comprehensive Approach Dhruv Saxena 2023-03-21 This book has been primarily designed for disaster management students interested in learning about the various aspects of Disaster management. Disasters can strike at any time, often without warning, and can have devastating consequences for individuals, families, and entire communities. Whether it is a natural disaster such as a hurricane, earthquake, or wildfire, or a man-made disaster such as a chemical spill or terrorist attack, the impact of a disaster can be far-reaching and long-lasting. Effective disaster management is essential to minimize the impact of disasters and to help affected communities recover and rebuild. This requires a coordinated and well-planned response from government agencies, non-governmental organizations, and other stakeholders involved in disaster management. This book aims to provide a comprehensive overview of the key concepts, principles, and practices of disaster management. It covers a wide range of topics, from disaster risk assessment and emergency preparedness to response, recovery, and reconstruction. It also explores the role of technology and innovation in disaster management and the importance of community engagement and resilience-building in disaster-prone areas. Written by experts in the field, this book is an essential resource for anyone involved in disaster management, including emergency responders, government officials, NGOs, and community leaders. It is also an important reference for academics and students studying disaster management and related fields. In a world where disasters are becoming more frequent and more complex, the need for effective disaster management has never been greater. This book provides practical insights and guidance on how to prepare for, respond to, and recover from disasters, and offers a roadmap for building more resilient and sustainable communities.

Harsh K. Gupta Harsh K. Gupta 2024-08-19 This book captures the essence of one of the most remarkable journeys of a professional who prevailed over numerous challenges and adverse situations that appeared before him from nowhere and how he emerged victorious to be hailed at a global forum of the American Geophysical Union in 2008. The author reflects upon the circumstances and times in post-independent India that threw him out of the comforts of a well-to-do family into the real world. He traces back his entry into the field of earthquake science and dwells at length upon the scope and freedom it offered for innovative thinking in the field with limitless opportunities. Mishaps and accidents paved the way to remarkable discoveries and achievements including the creation of the world record for establishing and populating India's first permanent base station in Antarctica in a record time of one Antarctic summer despite having a near-fatal helicopter crash on 4th day after reaching Antarctica. Stressing the need to live safely with earthquakes as their short-term prediction is not a possibility yet, the author advocates a two-prong strategy of directly looking into the earthquake source region deep inside the earth and developing an earthquake-resilient society, simultaneously. He cites the success story of the Indian Tsunami Early Warning System that is operational in the Indian Ocean, today. The book inspires young professionals with a flair for challenges and a burning desire to achieve results at any cost. This book provides important information in a nutshell about artificial water reservoir triggered earthquakes, India's building of the Dakshin Gangotri all-weather station in Antarctica, Indian Ocean Tsunami warning set-up, Low-Temperature Thermal Desalination, etc. The main objective of the book is to inspire a generation of young minds through a narration of scientific achievements that did not come easily to him. The aim is to tell them the difference between a reaction and a response to a given situation, the former being impulsive and irrational and the latter responsible and rational.

Disaster Management, Corporate Social Responsibility and Conservation Issues Amit Kumar Thakur, 2018-03-23 The vulnerability of various regions of the world towards disasters, both natural and anthropogenic, is widely known. Disasters such as landslides, earthquakes, floods have a long-lasting effect on the environment and socio-economic systems. These disasters have been occurring at regular intervals of time and the economic and social cost of these mount every year. Disaster Management, Corporate Social Responsibility, and Conservation Issues deals with the fundamental principles and current practices in the field of disasters. The book covers various environmental challenges and issues related to natural disasters that affect all forms of life. It discusses how disasters can be managed and the role corporate

social responsibility can play in addressing the issues. The book also provides conservation steps that can help in mitigating disasters. Experts from different fields have contributed diverse, technical, and best concepts. Through the writings, the book will make readers better prepared for the challenges of disaster management and strive towards sustainable development.

National Conference Proceedings on Computing, Communication, Control, Informatics and Bio-Sciences (NC⁴IB) Prof. (Dr.) Brajesh Varshney 2025-03-14 The National Conference on Computing, Communication, Control, Informatics, and Bio sciences (NC4IB), held on 3rd February 2024 organized by Kanpur Institute of Technology, Kanpur, provided an exciting and dynamic platform for researchers, academicians, industry experts, and students to come together and explore the cutting-edge advancements across a diverse range of multidisciplinary fields. This conference served not only as a forum for the exchange of knowledge and ideas but also as an occasion to foster collaboration and innovation in the areas of computing, communication, control systems, informatics, and bio-sciences. The overwhelming response to NC4IB, with a remarkable 137 paper submissions from renowned institutions and universities, is a testament to the growing significance of these fields in addressing global challenges and shaping the future. After rigorous peer review by a distinguished panel of experts, 75 full-length papers were selected for publication, contributing to the academic and scientific discourse in these areas. In addition, 49 abstracts were presented, providing a glimpse into the broad spectrum of research topics that continue to advance these dynamic fields. The conference was inaugurated by our esteemed Director, Prof. (Dr.) Brajesh Varshney, who highlighted the importance of interdisciplinary research and innovation. His inaugural address set the tone for the event, emphasizing the role of technology in shaping the future of various sectors. The morning session featured a keynote address by Prof. A. R. Harish from IIT Kanpur, who shared his expertise on the latest developments in electronics, offering valuable insights into the emerging technologies in this ever-evolving field.
