The Story of Tutankhamun Garry J. Shaw 2023-01-03 A lively new biography of Tutankhamun—published for the hundredth anniversary of his tomb’s modern discovery. The discovery of Tutankhamun’s tomb in 1922 sparked imaginations across the globe. While Howard Carter emptied its treasures, Tut-mania gripped the world—and in many ways, never left. But who was the “boy king,” and what was his life really like? Garry J. Shaw tells the full story of Tutankhamun’s reign and his modern rediscovery. As pharaoh, Tutankhamun had to manage an empire, navigate influential courtiers, and suffer the pain of losing at least two children—all before his nineteenth birthday. Shaw explores the boy king’s treasures and possessions, from a lock of his grandmother’s hair to a reed cut with his own hands. He looks too at Ankhnesenamun, Tutankhamun’s wife, and the power queens held. This is a compelling new biography that weaves together intriguing details about ancient Egyptian culture, its beliefs, and its place in the wider world.

The American Discovery of Ancient Egypt James P. Allen 1996 The first professionally trained American Egyptologists were latecomers, arriving in Egypt only around the turn of the twentieth century, decades after their European counterparts. Within a short time, however, they had a dramatic impact on the discipline, revolutionizing archaeological field techniques and reshaping our knowledge of this complex ancient civilization. This volume, which includes essays by ten distinguished Egyptologists, clearly defines the American contribution to this intriguing field of study.

World Military History Bibliography Barton Hacker 2003-06-01

Preclassical and indigenous nonwestern military institutions and methods of warfare are the chief subjects of this annotated bibliography of work published 1967–1997. Classical antiquity, post-Roman Europe, and the westernized armed forces of the 20th century, although covered, receive less systematic attention. Emphasis is on historical studies of military organization and the relationships between military and other social institutions, rather than wars and battles. Especially rich in references to the periodical literature, the bibliography is divided into eight parts: (1) general and comparative topics; (2) the ancient world; (3) Eurasia since antiquity; (4) sub-Saharan Africa and Oceania; (5) pre-Columbian America; (6) postcontact America; (7) the contemporary nonwestern world; and (8) philosophical, social scientific, natural scientific, and other works not primarily historical.

Hieroglyphic Egyptian Daniel L. Selden 2013-02-05 This book offers a comprehensive, self-contained introduction to one of the oldest known recorded languages—Hieroglyphic Egyptian. Unlike other approaches, it is geared toward learning to read one of the masterpieces of Middle Egyptian literature, the story “Shipwrecked Sailor,” written around 2200 bce. The text’s eighteen lessons—organized around such topics as the body, flora, fauna, titles, administration, religion, sexuality, and warfare—cover all the basic grammar and syntax of Middle Egyptian. The book includes exercises for each chapter, sign lists, Egyptian/English and English/Egyptian dictionaries defining all the words and phrases used in the lessons, and a new edition of the tale “Shipwrecked Sailor” with facing commentary. Although the overall approach is literary, Hieroglyphic Egyptian can also be used as an introduction to reading other material, such as biographical inscriptions, religious texts, historical annals, and mathematical or medical papyri. The text is

suitable for classroom use, as well as for those who want to learn independently.

‘Scènes de Gynécées’ Figured Ostraca from New Kingdom Egypt Joanne Backhouse 2020-02-27 This work examines images of women and children drawn on ostraca from Deir el-Medina, referred to in previous scholarship as ‘Scènes de Gynécées’. This publication represents the first systematic study of this material, and it brings together ostraca from museums worldwide to form a corpus united contextually, thematically and stylistically.

Doors, Entrances and Beyond... Various Aspects of Entrances and Doors of the Tombs in the Memphite Necropoleis during the Old Kingdom Leo Roeten 2021-02-11

Doors are more than a physical means to close off an entrance or an exit; they can also indicate a boundary between two worlds. This volume considers the Memphite Necropoleis during the Old Kingdom, and proposes that porticos, false doors, niches and mastaba chapel entrances are interconnected in their function as a barrier between two worlds.
