The Shortest History of Migration: When, Why, and How Humans Move - From the Prehistoric Peopling of the Planet to Today and Tomorrow's Migrants (The Shortest History Series) Ian Goldin

2025-02-11 From the Silk Roads to the Berlin Wall, discover the globe-turning history of human migration. "Provides essential context to one of today's most polarizing debates . . . engrossing and instructive—a must-read."—Sir Richard Branson, founder of the Virgin Group We are a species in motion—from the first steps of Homo sapiens across Africa to America's "melting pot." And when we move—in search of better things, or against our will—our beliefs and skills clash and combine, reshaping society time and again. In this visionary Shortest History of Migration, Ian Goldin uncovers key moments of cultural exchange while carefully examining empire, slavery, and war. Throughout, we meet famous explorers (Zheng He), exiles (Pablo Neruda), and everyday people in extraordinary circumstances: a Jewish man saved by the Kindertransport, a Japanese gardener who blossomed in Mexico City. Today, freedom of movement is being curtailed, even as climate change and conflict mobilize people everywhere around the world. Goldin reminds us that passports at every border are a modern invention (he traces the "birth of big brother" to World War I), revealing the folly of trying to halt migration—and proposing commonsense policy instead. A gripping chronicle of want and wanderlust, this is a moving portrait of humanity—in every sense of the word. The Shortest History books deliver thousands of years of history in one riveting, fast-paced read. #1 Bestseller in Human Geography and Emigration & Immigration

The Shortest History of Europe John Hirst 2022-11-08 Uncover the decisive moments that shaped a world-changing continent. The Shortest History books deliver thousands of years of history in one riveting, fast-paced read. Celebrated historian John Hirst draws from his own lectures to deliver this ultra-accessible master class on the making of modern Europe, from Ancient Greece through World War II. With over 600,000 copies sold worldwide, this brief history is a global sensation propelled by a thesis of astonishing simplicity: Just three elements—German warfare, Greek and Roman culture, and Christianity—come together to explain everything else, from the Crusades to the Industrial Revolution. Hirst's razor-sharp grasp of cause and effect helps us see with sparkling clarity how the history of Europe—the crucible of liberal democracy—shapes the way we live today. The Shortest History books deliver thousands of years of history in one riveting, fast-paced read. *A Short History of the Chief Campaigns in Europe Since 1792* Adolf von Horsetzky 1909

Medieval Europe: A Short History Judith M. Bennett 2006 Marked by C. Warren Hollister's clear historical vision and engaging teaching style, this classic text has been judiciously revised by Judith Bennett; the tenth edition includes greater coverage of Byzantium and Islam, a revised map program, a new essay program on medieval myths, and more. In his

preface to the eighth edition, Professor Hollister wrote of his realization, while in college, that our world today "is a product of the medieval past." Medieval Europe introduces today's students to the medieval roots of our own society.
