2025-01-09 Recent changes in travel practices, triggered by the COVID-19 pandemic, raise the question of how cities and mobility systems are changing. Moreover, many local governments are accelerating their plans to reduce car traffic. This book comprises expert contributions taking multidisciplinary perspectives on transport in a moving world. It examines the joint transformations of mobility practices, urban planning, transport public policies and rapid technological development, within the context of an increasingly uncertain world.
