Nonfiction Writing Power Adrienne Gear
2014-02-17 Writing nonfiction is a key skill that students will need throughout their school lives, and beyond. This remarkable book is designed to help teachers develop a writing program that will enable their students to harness all of their Nonfiction Writing Powers: to Describe, to Instruct, to Compare, to Persuade, to Explain, and to Report. It illustrates ways to encourage students to write because they have something to say, and to recognize that writing well means considering intent and purpose, and choosing the best form of expression. Ideal for teaching writing in the content areas, the book includes guidance on linking writing forms to Science, Social Studies, and other subject areas.

From Language Skills to Literacy Csilla

Weninger 2018-11-01 The narrowing of English language education curriculum in many contexts has negatively impacted classroom teaching and learning. High-stakes standardized testing, scripted curricula, and the commodification of English have converged to challenge socially meaningful classroom literacy instruction that promotes holistic development. Although in different ways, these factors have shaped the teaching of English as both first and second language. How can English educators respond? This book argues that the first step is to take account of the broader policy, political and cultural landscape and to identify the key constraints affecting teachers, students and parents. These will set the broad parameters for developing local pedagogic approaches, while still recognizing the constraints that actively push against them. Using Singapore English language teaching as a case study, this book illustrates how this process can unfold, and how media literacy principles were vernacularized to

design English classroom pedagogies that stretched the bounds of what is acceptable and possible in the local context.

How Parents Can Help Kids Improve Test Scores

Steven Schneider 2013-12-18 Steven

Schneider's newly revised second edition of *How Parents Can Help Kids Improve Test Scores:*

Taking the Stakes Out of Literacy Testing

highlights the most recent literacy initiatives in America since the federal act of No Child Left Behind. His book has been redesigned to further help teachers and parents navigate through the maze of newly developed state standardized testing in reading and writing, so students may be able to achieve greater success. By using the proactive methods shown in this book and by following easily understood step-by-step instructions, parents and teachers can begin to help their children take the first steps down the

road to literacy and to understanding the Common Core language arts subjects. This book features time-tested activities, suggestions, and a plethora of practical advice to assist teachers and parents in raising children's scores on standardized state reading tests. By utilizing the highly prescriptive "Pinpoint Reading Program," newly revised in this second edition, parents and teachers will gain new insights into the format, style, and objectives of these tests and how they can assist children to score higher. Most importantly, this book instills the confidence that children need to achieve the success that they rightfully deserve and for which their parents and teachers have come to expect.

Teach Yourself Word 97 in 10 Minutes Peter Aitken 1998 Readers will learn to navigate all the functions of Word 97, including how to copy, delete, and move text quickly; create eye-catching documents; change fonts and add bullets; add borders and shade paragraphs; and create tables and columns.

The School Library Media Center Ruth Ann Davies 1974 Examines current changes and trends in school librarianship and suggests guidelines for achieving an effective library media program.
