## **The Psychology of**

**Personality** Bernardo J. Carducci 2009-03-09 This engaging, comprehensive introduction to the field of personality psychology integrates discussion of personality theories, research, assessment techniques, and applications of specific theories. The Psychology of Personality introduces students to many important figures in the field and covers both classic and contemporary issues and research. The second edition reflects significant changes in the field but retains many of the special features that made it a textbook from which instructors found easy to teach and students found easy to learn. Bernardo Carducci's passion for the study of personality is evident on every page.

## **Educational Psychology for Learning and Teaching**

Dr Sue Duchesne 2018-10-01 Educational Psychology for Learning and Teaching introduces key theories of development and learning to help you understand how learners learn, and how educators can be more effective in their teaching practice. Featuring current research on the various dimensions of learning and teaching alongside traditional theories, it provides a clear framework of theory and evidence that supports modern education practices. Taking a comprehensive approach, this text investigates how to apply psychology principles to education contexts to enhance learning and teaching quality,

particularly for accommodating individual student needs. This wholly Australian and New Zealand text caters for those who are planning to work with any age range from early childhood to adolescence and beyond. With a greater focus on resilience in education settings, the discussion of creativity alongside intelligence and a broader discussion on diversity, this new edition is up-to-date for the pre-service teacher. New, print versions of this book come with bonus online study tools on the CourseMate Express and Search Me! platforms Premium online teaching and learning tools are available to purchase on the MindTap platform Learn more about the online tools [cengage.com.au/learning-solutions](http://cengage.com.au/learning-solutions)

### **Contemporary Motivation**

**Research** Marold Wosnitza 2009 Motivation research has a huge amount to offer in diverse areas of work and life. As with all scientific endeavors, however, it must face the issue

of generalizability knowing what works and under what conditions. This book confronts that issue by showcasing both applied "snapshots" and more basic theory-based enquiries that provide a global picture of contemporary motivation research and its applications. A stellar group of international scholars discuss different theoretical perspectives (e.g., achievement goals, self-determination, cognitive load, control value of achievement emotions, interest, self-efficacy) in diverse contexts (e.g., cooperative learning, help-seeking, teacher education, technology facilitation) to highlight the dynamic interplay between more basic research and real-life practice in classrooms and the workplace.

competence as an organizing framework for the field of achievement motivation. With an increased focus on connecting theory to application, the second edition incorporates diverse perspectives on why and how individuals are motivated to work toward competence in school, work, sports, and other settings. Leading authorities present cutting-edge findings on the psychological, sociocultural, and biological processes that shape competence motivation across development, analyzing the role of intelligence, self-regulated."--[Source inconnue].

**Handbook of Competence and Motivation, First Edition** Andrew J. Elliot

2013-10-15 This important handbook provides a comprehensive, authoritative review of achievement motivation and establishes the concept of competence as an organizing framework for the field. The editors synthesize diverse perspectives on why and how individuals are motivated in school, work, sports, and other settings. Written by leading investigators, chapters reexamine central constructs in achievement motivation; explore the impact of developmental, contextual, and sociocultural factors; and

analyze the role of self-regulatory processes. Focusing on the ways in which achievement is motivated by the desire to experience competence and avoid experiencing incompetence, the volume integrates disparate theories and findings and sets forth a coherent agenda for future research.

**Motivation and Action** Jutta Heckhausen 2025-09-30 This fourth edition provides translations of all chapters of the most recent sixth German edition of *Motivation and Action*, including one entirely new chapter. This volume provides comprehensive coverage of the history of motivation, and introduces up-to-date theories and new research findings. Early sections offer a broad introduction to, and deep understanding of, the field of motivation psychology, mapping out different perspectives and research traditions. Subsequent chapters examine major themes of human motivation, including achievement,

affiliation, and power motivation as well as the fundamentals of motivation psychology, such as motivated and goal oriented behaviors, implicit and explicit motives, and the regulation of development. In addition, the book discusses the roles of motivation in three practical fields: school and college, the workplace, and sports. Topics featured in this text include: Dynamic between person and situation in motivating behavior. Conscious and unconscious motivators of behavior. Drives and incentives in the fields of achievement, intimacy, sociability and power. How the biochemistry and structures of our brain shapes motivated behavior. How to engage in intentional goal-directed behavior. The potential and limits of motivation and self-direction in shaping our lives. *Motivation and Action*, Fourth Edition, is a must-have resource for undergraduate and graduate students as well as researchers in the fields of motivation psychology, cognitive

psychology, and social psychology, as well as personality psychology and agency.

*Perspectives* Martin L. Maehr

2008-09-01 Suitable for motivation researchers, this volume presents social-psychological approaches to the study of motivation and achievement, and chapters that cover a broad range of topics, from the influence of peers to the influence of color, on motivation and achievement.

**Motivation in Learning and Performance in the Arts and Sports** Adina Mornell

2025-02-27 Motivation is a crucial factor in achieving success in any field, but especially in the performing arts and sports, where consistent practice, discipline, and creativity are required to maintain a high level of performance. The science of motivation is relevant today more than ever for several reasons. First, motivation is a fundamental aspect of human behavior, and understanding what drives individuals to

perform at their best is essential in many contexts, including education, athletics, and the workplace. In this period of recovery and reset after pandemic-related lockdowns, knowledge about motivation can inform personal and policy decisions moving forward. Second, motivation is critical for achieving goals, and an understanding of what motivates individuals can help them aspire to set and achieve realistic and meaningful aims. Third, motivation is essential for maintaining mental and physical health and wellbeing, and an exploration of contributory factors can help individuals manage stress and anxiety.

*Key Competencies in ICT and Informatics: Implications and Issues for Educational Professionals and Management*  
Don Passey 2014-12-15 This book features a selection of thoroughly refereed papers presented at two subconferences of the IFIP TC 3 Conference on Key Competencies in Informatics and Information and Communication Technologies: the IFIP WG 3.4 Conference on Key Competencies for Educating ICT Professionals, KCICTP 2014, and the IFIP WG 3.7 Conference on Information Technology in Educational Management, ITEM 2014, held in Potsdam, Germany, in July 2014. The 28 revised full papers were carefully reviewed and selected from numerous submissions. They are organized in the following topical sections: key

competencies for educating ICT professionals; key competencies, learning and life transitions; key competencies and school management; and education stakeholders and key competencies.
