American Literature on Stage and Screen

Thomas S. Hischak 2014-01-10 The 525 notable works of 19th and 20th century American fiction in this reference book have many stage, movie, television, and video adaptations. Each literary work is described and then every adaptation is examined with a discussion of how accurate the version is and how well it succeeds in conveying the spirit of the original in a different medium. In addition to famous novels and short stories by authors such as Nathaniel Hawthorne, F. Scott Fitzgerald, and Willa Cather, many bestsellers, mysteries, children's books, young adult books, horror novels, science fiction, detective stories, and sensational potboilers from the past two centuries are examined.

The Literary Filmography Leonard Mustazza 2006-05-17 From the very infancy of the film industry, filmmakers have relied heavily upon literature as the foundation for their movie material. Well-known literary works such as Dickens's *A Christmas Carol* and Hawthorne's *The Scarlet Letter* were adapted to film in the silent era, as were such books as Thomas Dixon's Jr.'s *The Klansman*, basis for the film *Birth of a Nation*. In recent years, Nick Hornsby's *About a Boy* and each of Helen Fielding's *Bridget Jones's Diary* novels were the basis for popular movies bearing the same names. A guide to English-language works that have been adapted as theatrical and television films, this volume includes books (both fiction and non-fiction), short stories, newspaper and magazine articles and poems. Entries are arranged alphabetically by literary title with cross-listings for films made under different titles. Each entry includes the original work's title, author, year of first publication, literary prizes, and a brief plot summary. Information on film adaptation(s) of the work, including adaptation titles, director, screenwriter, principal cast and the names of the characters

they portray, major awards, and availability in the most common formats (DVD, VHS), is also offered.

Gregory Peck Gerard Molyneaux 1995-06-30

Born in 1916 in La Jolla, California, Gregory Peck took up acting in college on a lark that would lead to a career. In his early years, he appeared in a series of summer stock engagements and Broadway shows. He became a star within a year after arriving in Hollywood during World War II, and he won an Academy Award nomination for his second film. From the 1940s to the present, he has played some of film's most memorable and admired characters. This volume provides complete information about Gregory Peck's work in film, television, radio, and the stage. Entries are included for all of his performances, with each entry providing cast and credit information, a plot summary, excerpts from reviews, and critical commentary. A biography and chronology highlight significant events in his life, while a listing of his honors and awards summarizes the recognition he has received over the years. For researchers seeking additional information, the book includes descriptions of special collections holding material related to Peck's work, along with an extensive bibliography of books and articles.

Psychiatry and the Cinema Glen O. Gabbard

1999 *Psychiatry and the Cinema* explores this complementary relationship from two angles, psychiatrists who have studied the movies and movies that have depicted psychiatry. This second edition has updated this definitive text with a discussion of new trends in psychoanalytically oriented film theory, and an expanded list of movies is analyzed.

The Name is Familiar-- Robert A. Nowlan 1993 Which actor played Will Rogers on film? What was the name of Marilyn Monroe's character in "Gentlemen Prefer Blondes"? *The Name Is Familiar* documents over 9,000 films whose titles refer to particular characters. Part One lists film titles alphabetically with the name of the title character and the release, studio/production company, director, and leading performers. Performers who have played title role characters are listed in Part Two with the title roles in which they have appeared. Part Three is an alphabetical directory of characters with the performers who played the role; a capsule description of the role is also included.

Health Professionals on Screen Ann

Catherine Paietta 1999 Over the years the representation of medical personnel has varied from heroes to villains, madmen to bumbling boobs, money grubbers to humanitarians, and compassionate savers to aloof snobs. This comprehensive resource documents all significant appearances of health professionals on film or television.

People Like Ourselves Jacqueline Noll

Zimmerman 2003-09-29 The stigmatization of mental illness in film has been well documented in literature. Little has been written, however, about the ability of movies to portray mental illness sympathetically and accurately. *People Like Ourselves: Portrayals of Mental Illness in the Movies* fills that void with a close look at mental illness in more than seventy American movies, beginning with classics such as *The Snake Pit* and *Now, Voyager* and including such contemporary successes as *A Beautiful Mind* and *As Good as It Gets*. Films by legendary directors Billy Wilder, William Wyler, Alfred Hitchcock, Stanley Kubrick, Oliver Stone, Martin Scorsese, Francis Ford Coppola, and John Cassavetes are included. Through the examination of universal themes relating to one's self and society, the

denial of reality, the role of women, creativity, war, and violence, Zimmerman argues that these ground-breaking films defy stereotypes, presenting sympathetic portraits of people who are mentally ill, and advance the movie-going public's understanding of mental illness, while providing insight into its causes, diagnosis, and treatment. More importantly, they portray mentally ill people as ordinary people with conflicts and desires common to everyone. Like the motion pictures it revisits, this fascinating book offers insight, entertainment, and a sense of understanding.
