Codex 2013 Edward Wozny, a hot shot young banker, is sent to help one of his firm's most important and mysterious clients. When asked to uncrate and organise a personal library of rare books, Edward's initial indignation turns to intrigue as he realises that among the volumes there may be hidden a unique medieval codex, a priceless bound manuscript that has been kept sealed away for many years and for many reasons. Edward's intrigue becomes obsession that only deepens as friends draw him into a

peculiar and addictive computer game and mystifying parallels begin to emerge between the game's virtual reality and the legend of the codex.

Science Fiction, Fantasy and Horror Film

Sequels, Series and Remakes Kim R. Holston

2018-01-12 Science fiction, fantasy and horror movies have spawned more sequels and remakes than any other film genre. Following Volume I, which covered 400 films made 1931-1995, Volume II analyzes 334 releases from 1996 through 2016. The traditional cinematic

monsters are represented--Dracula, Frankenstein, the Wolf Man, a new Mummy. A new wave of popular series inspired by comics and video games, as well as The Lord of the Rings trilogy, could never have been credibly produced without the advances in special effects technology. Audiences follow the exploits of superheroes like Captain America, Iron Man, Spider-Man and Thor, and such heroines as the vampire Selene, zombie killer Alice, dystopian rebels Katniss Everdeen and Imperator Furiosa, and Soviet spy turned American agent Black Widow. The continuing depredations of Jason Voorhees, Freddy Krueger and Michael Myers are described. Pre-1996 movies that have since been remade are included. Entries features cast and credits, detailed synopsis, critics' reviews, and original analysis.

The Fire in Fiction Donald Maass 2009-05-06

Discover the Difference Between a So-So Manuscript and a Novel Readers Can't Forget We've all read them: novels by our favorite authors that disappoint. Uninspired and lifeless, we wonder what happened. Was the author in a hurry? Did she have a bad year? Has he lost interest altogether? Something similar is true of a great many unpublished manuscripts. They are okay stories that never take flight. They don't grip the imagination, let alone the heart. They merit only a shrug and a polite dismissal by agents and editors. It doesn't have to be that way. In *The Fire in Fiction*, successful literary agent and author Donald Maass shows you not only how to infuse your story with deep conviction and fiery passion, but how to do it over and over again. The book features:

- Techniques for capturing a special time and place, creating characters whose lives matter, nailing multiple-impact plot turns, making the

supernatural real, infusing issues into fiction, and more. • Story-enriching exercises at the end of every chapter to show you how to apply the practical tools just covered to your own work. • Rich examples drawn from contemporary novels as diverse as *The Lake House*, *Water for Elephants*, and *Jennifer Government* to illustrate how various techniques work in actual stories. Plus, Maass introduces an original technique that any novelist can use any time, in any scene, in any novel, even on the most uninspired day...to take the most powerful experiences from your personal life and turn those experiences directly into powerful fiction. Tap into *The Fire in Fiction*, and supercharge your story with originality and spark!
