Better Than Basic Monthly Planner Lisa

Mayfield 2018-12-15 e that was lightweight and highly portable, yet flexible and affordable. I found several different systems online, everything from a simple ring-bound book with a week for every 2 pages (and not nearly enough room to make notes) that came with some stickers, all the way up to the Cadillac of planners, the Franklin Covey system (which is way too pricey and involved for my budget). There were even some "print-your-own" planners that would have cost more in ink than I can afford. No matter where I looked, I just couldn't find what I was looking for. So, I decided to create my own. I wanted a planner that would give me enough space to write notes while I was in meetings, so I added lots of space for notes. I like the daily format, so I used one side of the page spread for an appointment schedule, and added a To Do list at the bottom of that page. On the facing sheet, I added priority lists, so I can keep track of what is most important to me on any given day, with sections for Personal,

Wellness, Work, Financial, and Other. Use this section in any way you see fit. Finally, I added lots of planning pages (year, month, and week), some notes pages, and even some blank freeform pages, so you can doodle, scribble, mindmap or whatever else your heart desires. Please note that this calendar is only for one month. Even so, it has more than 90 pages for you to use in whatever way works best for you. I purposely sized this so it was small, making it very portable, yet flexible enough to handle most busy schedules. It should hold a few folded letter size sheets of paper, in case you happen to need to carry a loose sheet or two to or from a meeting. Additional months will be available soon. I'm also planning a series of undated calendars and planners for different purposes, with a variety of colorful covers. I hope you enjoy your new planner. Remember to collect several to keep up with your future planning needs. Be sure to look for my Journals, Doodle Books, Dream Books, and other products.

Organizing Paper @ Home: What to Toss and How to Find the Rest Barbara Hemphill 2011-11
Why can't I ever find the papers I need? Did I save that on the computer or is it in my file? Sound familiar? Despite all our technology, paper is still the No. 1 challenge in households nationwide. It covers desks and the kitchen counter, gets stuffed into file drawers and now, saved in electronic form on the computer. Instead of solving our problems, computers and smartphones have created another realm of disorganization, with files and systems of their own to mix in with the paper. From the home office to the kitchen counter, Barbara Hemphill offers a step-by-step solution to purging, sorting and taming that paper (AND electronic) tiger. Her practical solutions will help you manage

every piece of paper or e-mail that comes into your house. She'll teach you how to make decisions about what to keep and where to keep and most importantly, how to find WHAT you need WHEN you need it!

The 25 Best Time Management Tools & Techniques

Pamela Dodd 2005 The authors wrote this book when they couldn't find a short, comprehensive time management book to recommend to their executive coaching clients. It's based on the best tips from the top 20 time management books on Amazon as of September 2005. The book covers all the important aspects of time management in five sections (Focus, Plan, Organize, Take Action, Learn) and 25 chapters. Not a linear system, the book's layout allows readers to read from start to finish or zero in on specific areas for improvement. Writing is tight, with no fluff and many bullets and numbered steps so readers can get right to work on changing their time management habits. The Appendix includes an annotated list of the 20 source books. There's also a select list of books, many of them classics, which help people lead happier, more fulfilled lives. The last appendix shows how to buy books for much less.

Published in December 2005, the book is now one of the top 5 time management books on Amazon!

Cornerstone Robert M. Sherfield 2008 Finally, a textbook that actually uses reading and critical thinking strategies rather than just talking about them. This new, compelling fifth edition of "Cornerstone: Discovering Your Potential, Learning Actively and Living Well" reflects a deeper focus on self-responsibility and active learning. It effectively utilizes SQ3R throughout, underscoring its importance to student success. Also new to this edition is the implementation of Bloom's Taxonomy through a feature titled "Knowledge in Bloom." This chapter-end activity helps students apply the information from each chapter by prompting them to reflect and respond to questions from each level of Bloom's. Two new chapters on money and debt management and self-engagement meet students where they are. A totally revised and updated chapter on change and goal setting highlights

the relationships between realistic goals and ushering positive change into one's life. Exciting Additional Revisions include: The BIG WHY!! (Author Perspective) and The BIG WHY (Student Perspective) - offers advice from the authors AND former students as to "WHY" the chapter is important to the student's success, knowledge, college survival, and overall well-being. From Ordinary to Extraordinary: Real Stories of Personal Triumph - individual, brief biographies of ordinary Americans who faced and overcame huge obstacles and adversity going on to reach goals and dreams. Where are You.... AT THIS MOMENT? - popular feature's scoring and interpretation has been significantly revised and simplified. The extraordinary supplemental resource package has been expanded to better fit faculty and student needs!
