Securing the Prize Randall Fowler 2024-11-14 How presidential metaphors have shaped US discourse on the Persian Gulf From the 1970s to the 1990s American presidents and their advisers introduced four metaphors into foreign-policy discourse that taught Americans to view the Persian Gulf as a vulnerable region and site of US responsibility on the world stage. In *Securing the Prize: Presidential Metaphor and US Intervention in the Persian Gulf*, Randall Fowler argues that, for half a century, metaphor has been central to defining America's role in the Middle East. Metaphors served as shorthand for presidents to promote their policies, filtering through the judgments of officials, journalists, experts, and critics to mediate American perceptions of the Gulf War. Tracing the use of security metaphors from President Richard Nixon to President George W. Bush, Fowler revises mainstream understandings regarding the origins of the War on Terror and explains the disconnect between skeptical public attitudes toward US involvement in the Gulf War and the heavy American military footprint in the region.

The Cold War Comes to Main Street Lisle A. Rose 1999 In 1950, Main Street American was abruptly traumatized. The sudden prospect of thermonuclear war with the Soviet Union, Senator McCarthy's vicious anticommunist crusade, and the beginning of the Korean War all combined to dampen the public mood. The Cold War invaded every home. Rose maintains that 1950 was a pivotal year for the nation. He argues that the convergence of Korea, McCarthy, and the bomb wounded the nation in ways from which we've never fully recovered. Brimming with originality, this book makes readers look at the Cold War from a dozen different angles.
